Agenda

1. Agenda Bashing

2. Discuss/Finalize FAQs
3. Milestones
4. Vectors of Attack Priority List
5. December 15th Workshop
6. Combined TSG and Steering meeting
7. Any other business

Notes

- **Discuss/Finalize FAQs** - The TSG reviewed the FAQ and had no objections to publication. ICANN staff will publish the FAQ by the end of this week. It will be a living document, with content added as the team advances its work.
- **Milestones and December 15 Workshop planning** - The TSG reviewed the project milestone, with a focus on the upcoming workshops. The next workshop will be held on December 15 and will focus on Key Questions 1, 2, and 4 from the DSFI TSG Charter.
 - Katrina, John, and Duane will work with ICANN staff to develop the templates that will inform the structure of the next workshop and offer the methodology for how to answer the Key Questions.
- **Vectors of Attack Priority List** - The TSG ranked the vectors of attacks developed during the November workshop by area of concern.

Action Items

1. Steven will organize a meeting of the volunteers who will work on the templates for the next workshop.
2. Katrina, John, and Duane will work with ICANN staff to develop the templates that will inform the structure of the next workshop and offer the methodology for how to answer the Key Questions.
