

Here is the most recent CSC update:

- The CSC met on 17 May 2021 at 02:00 UTC.
- After the review of the PTI report for April 2021 it was evaluated as Excellent. All 64 of the currently defined thresholds were met.
- Since the pandemic started, and ICANN meetings became remote participation only, the usual updates from the CSC and the PTI during ICANN meetings got deferred with the hope that this situation would be resolved soon. Since that was not the case, it is time to resume such activities, therefore, they will do a joint webinar on ICANN 71 scheduled for 17 June 2021, 14:30-15:30 UTC to update the community.
- I communicated to the CSC that the call for expressions of interest to find my replacement was launched and it will be open until this Friday 21 May 2021 (23:59 UTC).
- The next CSC meeting will be on Wednesday 16 June 2021, 09:30 UTC during ICANN71, but won't be included on the Block schedule, to preserve the committee's agreed rotation schedule.
