

The ccNSO Outreach and Involvement Standing Committee (OISC) had its third meeting on 6 May 2021. The group recently concluded some administrative matters, including a proposed update to its Terms of Reference. The update consists of two new proposed additional annexes to the ToR. The new additions only relate to the integration of the ccNSO Community Onboarding Programme (COP) and Travel Funding-related aspects into the OISC. No further substantial edits have been made.

The ccNSO Council will soon receive the revised ToR for its consideration and eventually adoption.

Moreover, the OISC is currently working on an outreach and involvement strategy, in a 3-step approach. The first step is to further refine its scope – within the framework of what is included in the OISC ToR, followed by a SOAR analysis, and finally, an impact-effort analysis of the actions identified.
