Draft Subject to Change

- ⊙ Plenary (2) and Public Forum to be non-conflicted. Other cross-community session to be scheduled as determined by the community.
- ⊙ Plenary sessions and virtual networking slots scheduled at varying times of day to provide more opportunity for participation from different time zones.
- ⊙ Reduced networking slots based on community feedback.
- ⊙ The proposed session for "Community Updates to the ICANN Board" is undesirable, however it is unclear whether this implies all SO/AC/SG/C meetings with the Board should be conducted during the official meeting.
