**ICANN 70 At-Large Session Proposal**

Title of the session:

ICANN Multistakeholder Model: New legislations and regulations, challenges and opportunities.

Session Description:

The aim of the session is to explore how new national legislations and regulations can affect ICANN multistakeholder model. The session will attempt to introduce the challenges and opportunities, and discuss how ICANN's multistakeholder model can be agile in the face of changes. In this meeting we bring together members from each of ICANN's At-Large five regions, in addition to members from different ICANN's organizations, committees and constituencies, aiming to listen to different stakeholders and understand their perspectives.
