Contributions and collaboration

ICANN organization's new Implementation Operations team is leading this planning work. This will require **meaningful contributions and constant collaboration from the community,** organization, and Board to plan and carry out the implementation of this project.

MS model evolution – implementation and planning phase

The plan will be converted into a set of proposed actions with resource allocation and will be scheduled for implementation according to the agreed-upon level of priority.

From ICANN Blog Oct. 14, 2020

Activities re: MSM evolution

- Six activities of interest to At Large -- FY22

Activities tracked on proposed dashboard

1. Plan & implement recs.
   CCWG Accountability WS2 – final report
   Part of Board/Org commitments (ATRT3) – dashboard pending – designed to avoid end of activity reporting
2. Work with community to evolve governance structures & implement board approved review recs.
   Will this be part of the dashboard?
   Evolving gov. structures unlikely to go unnoticed

Collaborative activities

1. Enhance cross-functional work re: collaboration with community on evolving MSM issues

2. Formalize collaborative work among leaders SOs/ACs and ICANN org

   Community activity indicators to be set up

   for tracking – awaiting details

FY22 Activities of interest to At Large – misc.

1. Cont. Implementation outcomes of ATLASIII

   This is in At Large remit to manage and record

2. Support At Large (and other ACs) in advice development which includes drafting, research and facilitating the work of regional cttees and working groups

Tracking progress - FY22

- Membership tracking and other metrics.

- Implementation of Bd-approved recs from Organizational & Com. Charter Reviews.

Proposed dashboard

- Metrics related to Public Comment proceedings.
