

EXPRESSION OF INTEREST FOR THE ROLE OF VICECHAIR LACRALO 2021-2023

SOI: <https://community.icann.org/pages/viewpage.action?pageId=56132701>

As part of the regional election process, in this way I go to confirm my expression of interest for the role of regional vice chair whose designation corresponds to the Andes subregion.

The new period of regional construction that we have today has been the fruit of a voluntary effort of many regional members who allowed us to generate spaces for dialogue and encounter through the recognition of our diversity, committing ourselves to the work necessary for that stage, now Greater challenges await us.

The skills acquired in professional training as a project leader and ICT consultant for the private and public sector and since 2014 more involved in the Icann community allow me to place my experience at the disposal of a new role in the region so that together we can expand the scope of our participation.

We have evolved in the internal spaces of Lacralo, which allows us to consider the plan to advance in processes of construction of pronouncements that the new reality and the position of ICANN will demand in the short, medium and long term.

I consider Lacralo to be an important part of the Icann structure and the global DNS ecosystem, therefore I invite you to reinforce our commitments as organizational leaders to broaden our impact from a technical, legal and social perspective as individual users of the Internet.

Like many Alsés in the region, I am also happy with the growth we have experienced in both organizational and individual membership. While we have experienced these membership increases, we must also recognize that it is necessary to improve our active and informed participation, therefore, this will be one of the areas in which I am sure we can work together from the role of vicechair in challenging times. that we are living.

I am sure of the capacities that we have as a region to work with greater force in placing the Latin American and Caribbean perspective within the new agenda of the global internet governance ecosystem for these years.

Thank you for the honor of trusting in my work skills and experience to apply and place them at the service of a new role.

It is my commitment that we continue to see the diversity of Lacralo as one of our great strengths to build unity and global impact from a regional perspective.

Big hug
