

I have self-nominated myself for the post of EURALO delegate to the 2022 NomCom.

I did that at what I was considering usual deadline just before midnight UTC (it is the way we organize election at EURALO).

The second reason is that we used to give a second term to incumbent. NomCom is an evolving beast and there is no institutional memory. The only way is to have enough delegates from one At-Large going from one year to another. This year there are 3 who can't be return.

The question for EURALO and ALAC is: Do we want to have only one delegate going from 2020-2021 to 2021-2022 NomCom.

Your call.

The third reason, I am doing the job this year and I am ready to do it again next year.

All the best  
SeB
