

I know the Euralo community, I understand its nature, difficulties and achievements, members, internal and external relationships.

I also know the points and issues where we can put more effort for a better result of our interaction and working processes. And I am going to work hard to reach these achievements with my colleagues.

However, I also understand that the Secretary is the back office for the EURALO Chairman and part of the EURALO leadership team. The Secretary plays the role of helping and supporting any activities, projects, and helping with any issues of EURALO growth and improvement in which I could and can be useful. I may do this work and I am going to continue to work for EURALO.

Sincerely,
Natalia Filina
