Once the appointment as Chair of the WG for the ICANN 70 meeting was notified, a call was convened with the members of the WG, to begin planning the activities of At Large for ICANN 70 in terms of social media, managing to design the following strategy:

We decided to prioritize work with the Subcommittee outreach and engagement, At Large Capacity Building Working Group, ICANN fellows, Next Gen and the RALO's, especially LACRALO for being the host region and with the entire At Large community to reach more people and invite them to join and participate not only in the activities of the WG, but also in the sessions scheduled by At Large for ICANN 70.

In this first call we elaborate the strategy and divide it into three phases Activities prior to ICANN 70, during ICANN 70 and after ICANN 70.

A [google document](#) with the proposed activities is prepared and published for comments by group members.

PRE ACTIVITIES ICANN70

1. Open for comments the SMWG draft of activities
2. Collaborative work between SMWG – CBWG – O&E SC – RALOS – Fellows – Next Gen
3. To create hashtags in EN & ES for social media

CONCLUSIONS

A message for the Social Media WG and At Large community:

I want to thank the wonderful social media working group, the leadership of At Large, our incredible staff, and our entire community, for all the support given to the activities we proposed to promote the ICANN70 meeting within our community.

Everyone did a great job of spreading our activities, videos and messages, which undoubtedly contributed to the success of the At Large sessions.

A special thanks to the fellows and next gen, who heeded our call and actively participated in all social media activities. I feel that we achieved a goal and it is the greater outreach, knowledge and engagement of new generations of our At Large community.

I highlight the teamwork achieved with the capacity building wg, the LACRALO community and the ICANN office team for LAC, their support was fundamental for the success of some activities carried out. I also highlight the work of all the wonderful people who took part of their time to record and produce the promotional video.

Sorry if I missed mentioning someone, there were many people who made the success of this social media work possible. To all of them my deep gratitude.

Finally, I thank the life that allowed me to assume this leadership on behalf of my beloved LAC community, it was an honor to represent them, especially in these difficult times of pandemic that we are experiencing, which has modified our face-to-face interaction, replacing it with interactions in linea, which has given great relevance to social networks that have become an important vehicle of communication.

Best wishes for success to Natalia Filina ICANN 71 regional chair of the At Large Social Media Working Group, also to all regional Vice Chairs. We will continue to work as a single team for our WG.
