

# Overview: CSG Near-Term Priorities

21 June 2021

# CSG-Priorities

- Decrease the incidences of DNS abuse
  - Positively impact the level of DNS abuse, as measured by ICANN and non-ICANN sources
- Improve legitimate access to domain name registration data
  - As a method to match the rapid occurrences of abuse and other legitimate investigatory needs
- Improve the ICANN compliance function
  - To uniformly improve the overall health of the DNS
- Bring ICANN up-to-date on its overdue obligations to the community
  - Complete work on recommendations from CCTRT, SSR2, PPSAI and align ICANN review activity with community input
- Approved ATRT3 Recommendation for Holistic review
  - Scope
  - Timing
  - Impact on other organizational reviews
