3-12-3 game: Brainstorming on ccNSO & DNS Abuse

- Council groups (3 break-out room) + 1 General group (main room)
  - All Councillors are asigned to break-out rooms
  - All other particpants remain in main room

- **3 minutes** individual thinking on aspects of ccNSO & DNS Abuse
  - What does this trigger in your mind?
  - What do you think are your 3 most important aspects?

- **12 minutes** to share aspects and discuss each groups top ones (max 6) and map them in grid:
  - Hi-Lo Impact: What is assisting ccTLDs and broader community to deal with DSN Abuse?
  - Hi-Lo Effort: What does it take to achieve the desired result? How much effort does it take to make it work?

- **3 minutes** reporting back per group

- Time is of the essence: 50% rule.
  - After 3 and 12 minutes breakout rooms will close.
  - After 50 % time past you'll be informed of remaining time to go.

IMPACT

What is assisting ccTLDs and broader community to deal with DNS Abuse?

Next Steps

- Secretariat to summarize results

- Further (online) discussion and structure the role of ccNSO

- Decision-making on proposed roles of the ccNSO which actions to take
