Agenda

- ➢ Introduction & Purpose of the Questionnaire

- ➢ Questionnaire Questions

- ➢ How can At-Large Submit a Response?

- ➢ Questions?

Introduction & Purpose of the Questionnaire

➢ **ICANN Board has requested ICANN org to conduct an ODP to:** inform its deliberations including if the recommendations are in the best interest of the ICANN community or ICANN

➢ **To determine the feasibility and associated risks, costs and resources required to implement SSAD , the questionnaire aims to gain an understanding of:**
1. The expected volume the SSAD operational flow will be able to manage
2. The number of potential users expected to use SSAD

➢ **The results of the questionnaire will be kept confidential**

➢ **Some questions require numerical answers**

Questionnaire Questions

1. What best describes your organization?
2. In what jurisdiction do you or your organization primarily function?
3. During 2019, what was the monthly average number of requests to disclose nonpublic gTLD registration data that your organization submitted?
4. During 2020, what was the monthly average number of requests to disclose nonpublic gTLD registration data that your organization submitted?
5. If implemented how likely are you or your organization to use the SSAD to request nonpublic registration data?
6. If SSAD is implemented, what do you estimate would be the monthly average umber of requests to disclose nonpublic gTLD data that you or your organization would submit?
7. What additional categories of users, besides the ones listed below, do you or your organization believe would be interested in using the SSAD to access nonpublic data?
8. What factors would be most important to you in determining whether to use the SSAD?
