ICANN Training Track - Pakistan

Better understand ICANN and the world of domain names, and in return have more Pakistani stakeholders more involved in ICANN and its work

Partnership between ICANN and the ISOC Islamabad Chapter

The program consists of a mix of online courses and live webinars. Enrolled participants should show full commitment during the entire duration of the program

Participants will utilize a dedicated mailing list to communicate with each other. Participants will also attend a 1-hour session every Sunday.

Short-Term and Long-Term Activities

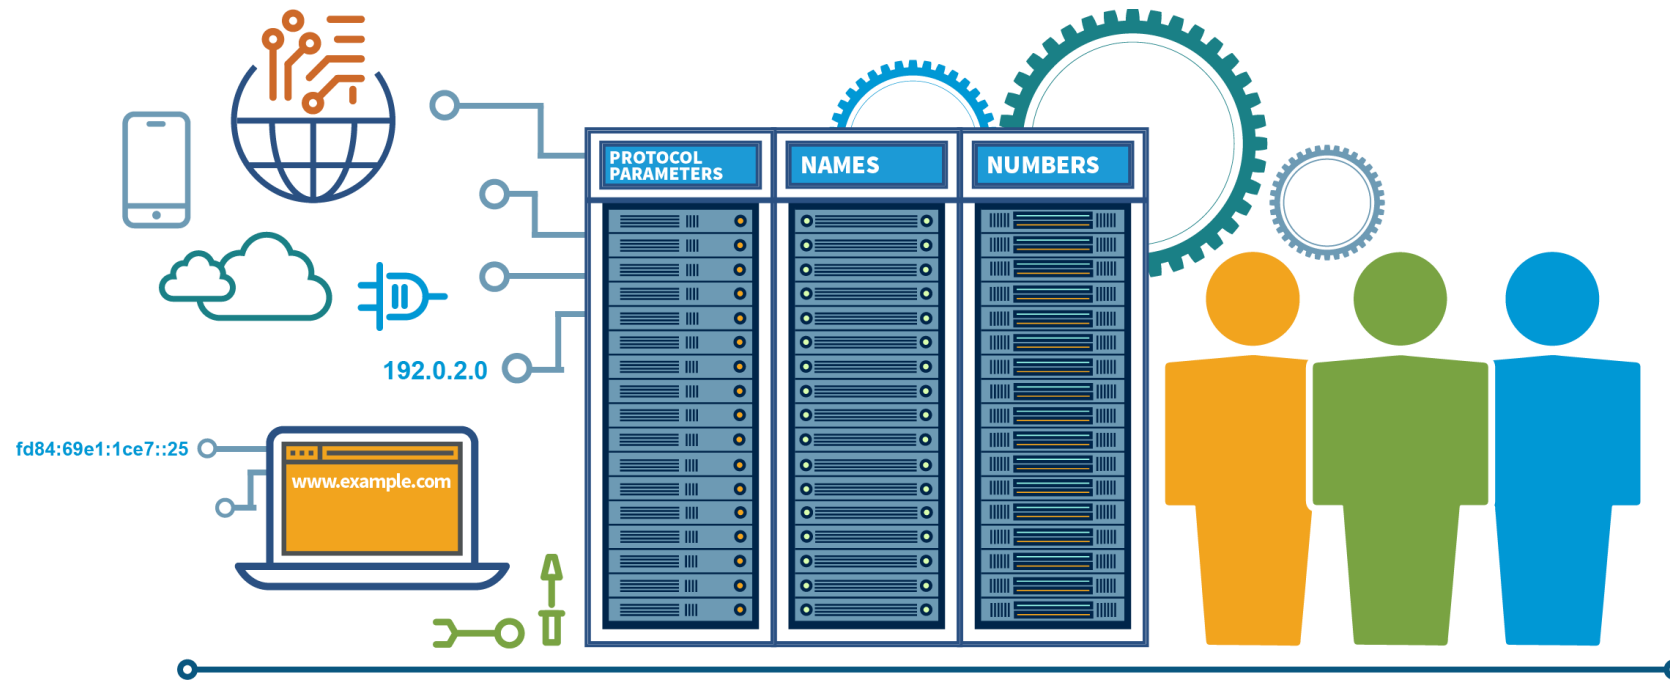

Short Term Activities

22 August (12.00 - 13.00 Pakistan Time)	Webinar on ICANN's policy development process

Tailored to interested of each participant

Introduction to ICANN

Coordinating with our partners,
we help make the Internet work.

ICANN's Mission

The mission of the Internet Corporation for Assigned Names and Numbers (ICANN) is to **ensure the stable and secure operation of the Internet's unique identifier systems**

Specifically, ICANN:

- 

1 Coordinates the allocation and assignment of names in the root zone of the Domain Name System
- 

2 Coordinates the development and implementation of policies concerning the registration of second-level domain names in generic top-level domains (gTLDs)
- 

3 Facilitates the coordination of the operation and evolution of the DNS root name server system
- 

4 Coordinates the allocation and assignment at the top-most level of Internet Protocol numbers and Autonomous System numbers
- 

5 Collaborates with other bodies as appropriate to provide registries needed for the functioning of the Internet as specified by Internet protocol standards development organizations

ICANN Ecosystem

Next Steps

Next Task

1. Go to <https://account.icann.org/login> and create an account.
2. Take the following ICANN Learn courses:
 - *Visual Guide to the History of the Internet*
 - *Introduction to ICANN*
