

EPDP Phase 2A

New RDDS Data Elements

Hadia El Miniawi & Alan Greenberg

CPWG

25, August 2021

Agenda

-
1. Standardized/Common Data element recommendation
 2. Two Data Elements Possible Approach
 3. EPDP Phase 2A - Timeline
 4. Questions?

Standardized/Common Data element recommendation

The EPDP Team recommends that, a field or fields **MUST** be created for the RDDS that **MAY** be used by those Contracted Parties that differentiate between legal and natural person registration data and/or if that registration data contains personal or non personal information. The SSAD, consistent with the EPDP Phase 2 recommendations, **MUST** support the field or fields in order to facilitate integration between SSAD and the Contracted Parties' systems.

Standardized/Common Data element recommendation

These field(s) must be able to accommodate the following values:

Legal Status

- The legal status distinction was not made.
- Unspecified – Indicating the Registered Name Holder and/or registrar didn't specify.
- Registered Name Holder is a Natural person
- Registered Name Holder is a Legal person

Personal Data

- The presence of personal data wasn't determined
- Unspecified – Indicating the Registered Name Holder and/or registrar didn't specify
- Registration data contains personal information
- Registration data does NOT contain personal information

The EPDP expects that the technical community, for example the Registration Data Access Protocol (RDAP) Working Group, will develop any necessary standards associated with such fields.

Two Data Elements Possible Approach

The use of two data elements, one for the legal status of the registrant, and one for whether the registrant data contains personal information

Legal Status (KIND)

- 000 Blank, indicating the question either wasn't asked or wasn't answered. This is distinct from the registrant declaring they won't specify.
- 001 Unspecified. The registrant says they won't say.
- 010 Natural person
- 100 Legal person

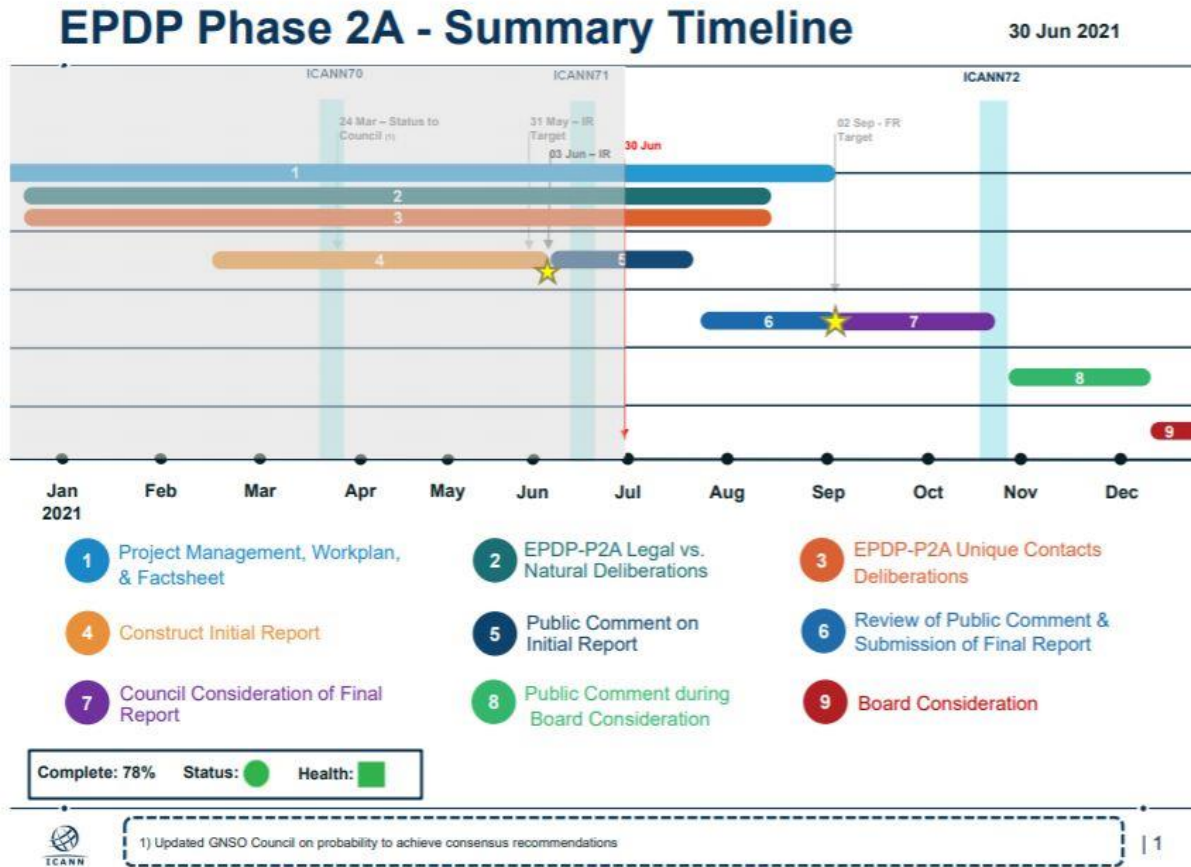

Personal Data

- 000 Blank, indicating the question either wasn't asked or wasn't answered. This is distinct from the registrant declaring they won't specify.
- 001 Unspecified. The registrant says they won't say.
- 010 There is personal data
- 100 There is no personal data

Disclosure rules:

- if the registrant status is one of <a list of values>, set the disclosure rule to be R1
- if the registrant status is one of <a second list of values>, set the disclosure rule to be R2
- etc

EPDP Phase 2A - Timeline

Questions?

Thank you
