On behalf of the EURALO leadership team

2021 turn to be as 2020 a year without travel and full of Zoom .
It is why this EURALO General Assembly is only virtual.
We face difficult times, but I am pleased to see a lot of you still participating to ICANN activities.
We keep hoping to resume face-to-face meetings as soon as possible.
Regarding ICANN meetings, ICANN73 in San Juan – Puerto Rico in March is already virtual.
How will be ICANN74 in The Hague in June and also EURODIG in Trieste?
As it is in Europe, EURALO need to be ready for either face-to-face or virtual meetings.
We started to prepare a f2f General Assembly for EURALO along with ICANN74.
EURALO start with the support of ICANN Org (both At-large and GSE staff) to organize:

- Monthly RoundTable (by EURALO). 8 of them were organized in 2021
- Multi-lingual ReadOut after each ICANN meetings

EURALO 2021 GA will be the opportunity to ear
EURALO leaders running (or participating)
various ALAC of ICANN tracks:

- At-Large Outreach & Engagement
- At-Large Consolidated Policy WG (CPWG)
- At-Large Operations, Finance and Budget Working Group (OFB WG)
- ALAC
- NomCom
- Other Policy Development Processes / WG

.Natalia Filina
EURALO Secretary

You are invited to join the calls organized regularly,
your voice is important, the voice of Europe will have more weight.

ALAC Chair

We have all experienced yet another year of virtual meetings that have now become the global "new normal". The challenge for At-Large was to make working and ICANN meeting sessions more interesting and engaging for our members. I thank the EURALO ALAC and Regional Leaders, as well as your representatives on PDPs and At-Large working groups, for taking up this challenge and for the great impacts you have made on behalf of At-Large. I hope to see even more of you becoming actively involved in our policy, operations and outreach activities during 2022. In the meantime, enjoy the festive holiday break and I hope you will return to At-Large in the New Year, refreshed, safe, and healthy.

Best regards, Maureen

"Developing Regional Policy measures in the field of DNS Abuse"

This EURALO Roundtable will kick off the EURALO DNS Abuse end user information campaign by looking at how current DNS Abuse policy trends fit in with European legislative developments and community expectations

We will look at various approaches to DNS Abuse with regard to policy development and measuring its impact, from proposed (legal) documents such as the

- Updated Directive on Network and Information Security (NIS 2)
- Digital Services Act (DSA)
- Digital Markets Act (DMA)
- Internet and Jurisdiction Project's Toolkits, offering cross-jurisdictional, practical methods for policy implementation
- Reputation Block Lists (RBLs), the way they are developed, designed and implemented

We will seek to understand how end user interests can be best represented within all these processes

A virtual round table discussion to address the assemblage of laws, treaties, agreements, regulations, and self-regulation through which data is "governed", with particular emphasis on the geopolitical implications of the processes

At-Large Policy Session 2: Tackling DNS Abuse
By **Joanna Kulesza (EURALO)**

This session aims to bridge the widening gap between policy development around activity considered abusive to the Domain Name System (DNS Abuse) and relevant legal and policy measures. With the overall goal of breaking the silos, it brings together technical community, governments and business from around the globe to offer different perspectives on DNS Abuse and platform liability. Looking at automated content moderation within platforms, it asks the questions of recommendable policy solutions to best address end user needs and concerns.

ALAC SUBCOMMITTEE ON OUTREACH AND ENGAGEMENT

A **very convenient tool** is available on the wiki: **the spreadsheet of expertise of ALS representatives and individuals**. We will be happy if you find an opportunity and indicate your expertise in different fields and professional area connected to ICANN interests. This is a very important, valuable tool and a new opportunity for effective interaction in the framework of highly specialized discussions and projects, professional communication and analysis of the EURALO potential.

**At-Large Community
Launches Two ICANN Learn Courses**

Two new courses about the At-Large community are now available on ICANN Learn.

The first course provides **an introduction to the At-Large community and the At-Large Advisory Committee (ALAC)**, how they function within the ICANN community, and how end users can start and continue their involvement.

The second course, **"ICANN Policy Development: A Guide for At-Large Participants"** provides a deeper dive into how the ALAC develops policy advice and forms policy positions. **Take the courses!**

Don't forget about the **unique opportunity** to participate in At-Large Capacity Building webinars.
