

IRP-IOT – Draft structure for sub-groups

Consolidation (2, 8 and 9) – there were some volunteers for this but we did lose Helen from this effort, so I think it's worth seeing if anyone would like to join. We need to wrap up this work, and I think it makes sense to include the outstanding item on interim measures

Arbitrator selection (1)– to look at the selection of arbitrators

Initiation of an IRP – this could look at 3 and 10b

Procedure where ICANN fails to respond (4)

Items 5, 6 and 7 need to be discussed in full group, at least initially.
