Project Description

On 20 May 2021, the GNSO Council passed a resolution to initiate the Expedited Policy Development Process (EPDP) on Internationalized Domain Names and adopt its charter. The EPDP Team is tasked with providing the GNSO Council with policy recommendations on: 1) the definition of gTLDs and the management of variant labels; and 2) how the IDN Implementation Guidelines, which Contracted Parties are required to comply with, should be updated in the future.

Charter

Open Issues & Risks

- Deliberations of certain charter questions depend on the critical input from external parties and additional data collection efforts.
- Updates to the Phase 2 project plan and timeline requires insights into the potential content to be included in the next AGB, as well as understanding of how easy or difficult these questions may be tackled.
- If an expedited timeline is required to complete deliberation of the Phase 2 questions that are on the critical path of SubPro implementation, the EPDP Team would require additional resources and support to help speed up its work.

Completed in Prior Period

- Completed deliberations of all Phase 1 preliminary recommendations and completed the drafting of Phase 1 Initial Report for public comment.
- Completed and distributed Project Package.

Current Activities & Tasks

- Conduct the Public Comment process for Phase 1 Initial Report (24 April - 5 June 2023).
- Analyze Phase 2 charter questions and identify the ones that will impact the next Applicant Guidebook.
- Consider potential updates to project plan and timeline, as well as appropriate mechanisms, to deliver relevant Phase 2 recommendations to the GNSO Council in an expeditious manner.
- Conduct data collection among contracted parties to assist EPDP Team's deliberation on second-level variant management related issues in Phase 2.

Planned Activities & Tasks

- Conduct a community webinar to promote the Phase 1 Initial Report and present the preliminary recommendations, as well as their relevant background, highlights, and challenges.
- Meet with the SSAC to highlight selected preliminary recommendations and encourage them to participate in the Phase 1 Initial Report public comment proceeding.
- Meet with the GAC to discuss Phase 1 preliminary recommendations relevant to SubPro, as well as Phase 2 charter questions that may have impact on the AGB.
