Introduction and Public Comment
Overview
Introduction

- The ICANN Bylaws require a five-year strategic plan for each five fiscal year period, and a five-year operating plan: both are refreshed annually.
- The ICANN Board has been working diligently to develop the Draft ICANN Strategic Plan for Fiscal Years FY26–30.
- This strategic planning process results in the delivery of:
  - The ICANN FY26–30 Strategic Plan
  - The ICANN FY26–30 Operating Plan Framework
- The current timeline aims to deliver the FY26–30 Strategic Plan for Board adoption no later than March 2025.
- Public comment opened on 23 July 2024 and runs through 17 September 2024.
- Community engagement throughout the process has been a key priority for the Board.
How We Got Here

**Environmental Scan**
Seven brainstorming sessions are held with stakeholders from across the ICANN ecosystem. The objective of the sessions is to identify the internal strengths and weaknesses, as well as the external opportunities and threats, that affect ICANN’s ability to fulfill its mission.

**Strategy Development**
The Board uses the ideas and insights collected during the environmental scan to determine where ICANN is now and where it would like to be in the next five years. The resulting strategic objectives, goals, and associated strategies form the basis of the Strategic Plan. The Board holds 13 committee working sessions and three Board Workshop sessions during this time.

**Community Engagement**
The Board conducts community webinars and focused one-on-one engagements throughout the Strategic Plan development to gather community feedback. Eleven sessions are held during this time.

**Implementation Strategy Development**
The Board collaborates with the ICANN Executive Team to determine how ICANN will achieve its strategic objectives and goals. These implementation strategies are used to develop the five-year Operating Plan Framework.

**Public Comment Proceeding**
The Board solicits community feedback on the Draft Strategic Plan through a Public Comment proceeding. The Draft Five-Year Operating Plan Framework, also published for Public Comment, provides a comprehensive overview of how the Strategic Plan will be achieved.
Public Comment Proceeding Timeline

Open for Public Comment
23 July 2024
- Draft ICANN Strategic Plan for FY26-30
- Draft Operating Plan Framework for FY26-30

Closed for Submissions

Community Input is Critical

- **Public Comment Proceeding** is open until 17 September 2024
- This public comment proceeding uses a **guided submission form**
  - It is designed to help community members provide structured feedback on the draft plans
  - It may direct a reader’s attention to key sections of the draft plans
  - It may provide guidance and pointers to help formulate comments
- We look forward to receiving your responses

Strategic Objective 2:

Enhance Organizational Excellence

2.1 Pursue a Sustainable Future.

- 2.1.1 Improve institutional agility and adaptability.
- 2.1.2 Preserve ICANN’s financial sustainability.

2.2 Enhance ICANN’s Global Presence and Impact.

- 2.2.1 Evolve the hybrid workforce model and optimize regional office utilization.
- 2.2.2 Embed ecological responsibility into ICANN’s operations.
2.2 Enhance ICANN’s Global Presence and Impact

2.2.1 Evolve the hybrid workforce model and optimize regional office utilization.
Strengthen ICANN’s operations by leveraging a hybrid workforce model and maximizing the use of regional offices to meet the needs of the community, Board, and org. Embrace tools that enhance collaboration and employee satisfaction across diverse geographical locations.

2.2.2 Embed ecological responsibility into ICANN’s operations.
This strategy aims to reduce ICANN’s ecological footprint, achieve a balance between multistakeholder effectiveness and ecological impact, and lead by example in the industry. This initiative underscores ICANN’s dedication to sustainability and demonstrates ICANN’s proactive approach to minimizing its environmental impact while continuing to fulfill its mission.

### Progress Indicators
- Employee satisfaction surveys show positive trends.
- Surveys of the Board and community’s perception of ICANN org operations show positive trends.
- Metrics tracking regional office usage, such as hosted events at each regional office.
- Measurement of ICANN’s ecological footprint and the reduction in its carbon footprint.
- Survey results indicating the Board, community, and org’s perception of the success in embedding ecological responsibilities and the perceived impact.

### Strategic Risks
- Failure to evolve the hybrid workforce may lead to dissatisfaction among org employees, loss of vital talent, and reduced productivity.
- Failure to optimize regional office utilization may limit ICANN's ability to establish a strong presence worldwide and cause it to be perceived as U.S.-centric.
- Lack of ecological responsibility may threaten ICANN’s reputation.

ICANN’s Mission and Vision Statement

Mission

To ensure the stable and secure operation of the Internet's unique identifier systems

ICANN’s Mission is stated in ICANN Bylaws Section 1.1

Vision for 2030

As the trusted steward of the Internet’s unique identifier systems, ICANN is dedicated to strengthening the single, globally interoperable Internet for all
Strategic Objectives

1. Evolve and promote ICANN’s Multistakeholder Model to sustain its inclusive Internet governance model

2. Enhance organizational excellence

3. Collaborate with relevant stakeholders to evolve the Internet’s unique identifier systems

4. Strengthen the security of the Internet’s unique identifier systems
Strategic Objectives: Current vs. Next Draft

**FY21–25 Strategic Plan**

- Improve the effectiveness of ICANN’s multistakeholder model of **governance**
- Address **geopolitical issues** impacting ICANN’s mission to ensure a single and globally interoperable internet
- Ensure ICANN’s long-term **financial** sustainability
- Evolve the **unique identifier systems** in coordination and collaboration with relevant parties to continue to serve the needs of the global internet user base
- Strengthen the **security** of the Domain Name System and the DNS Root Server System

**FY26–30 Strategic Plan**

- Evolve and promote **ICANN’s Multistakeholder Model** to sustain its inclusive Internet governance model
- Enhance **organizational excellence**
- Collaborate with relevant stakeholders to evolve the Internet’s **unique identifier systems**
- Strengthen the **security** of the Internet’s unique identifier systems

     - Key Activities

Five-Year Strategic Plan

Five-Year Operating Plan
Key Activities: The high-level activities necessary to deliver on each of the strategies. The activities outlined under each strategy reflect the phasing identified by the Board.

- The Five-Year Operating Plan Framework highlights activities that are strategically important and directly link to the Strategic Plan
  - The Five-Year Operating Plan Framework focuses on activities to support the achievement of strategy (key activities)
  - The phasing of the implementation key activities occurs at the strategies level as high-level implementation plans over five years
  - Specific details of prioritization and resource allocation will be defined during the annual Operating Plan and Budget process and a FY26-30 Operating and Financial Plan will be developed and will go out for public comment
  - This approach ensures that we maintain a consistent strategic direction while remaining flexible and adaptive
    - Allowing org to respond effectively to progress made each year and to allocate resources appropriately for the coming year
Phasing of the FY26-30 Strategies

**Phasing:** The Board identified a structured approach to guide the planning and prioritization of activities, categorized by the level of attention and resources required for each strategy.

**GREEN = ONGOING COMMITMENT, NO CHANGE**
The phasing of these strategies implies that the associated action plan represents ongoing activities that do not require significant changes or additional resources. They are the foundation of our operations, and ensure stability and consistency without the need for a shift in direction.

**BLUE = INCREMENTAL IMPROVEMENTS, MODERATE ATTENTION**
The phasing of these strategies implies that the associated action plan involves enhancing current activities and potentially introducing new initiatives or projects. They require moderate resources and attention, and aim to build upon existing efforts with incremental improvements.

**ORANGE = STRATEGIC INTENSITY, HEIGHTENED ATTENTION**
The phasing of these strategies implies that the associated action plan demands intensive efforts or substantial resources. They are likely to involve launching high-impact initiatives or projects that require significant focus and investment, and reflect a considerable shift in direction or scale.
Operating Plan Example: Key Activities + Phasing

Strategic Objective 1:

Evolve and Promote ICANN’s Multistakeholder Model to Sustain Its Inclusive Internet Governance Model

Goal

1.3 Expand Strategic Alliances to Advocate for the Multistakeholder Model of Internet Governance

1.3.1 Demonstrate that ICANN’s multistakeholder model of governance remains the right model to deliver ICANN’s mission.

This strategy reflects the fundamental nature of ICANN’s governance model. It is critical to continue to reaffirm and consistently showcase how it provides the optimal framework to fulfill ICANN’s mission.

To implement this strategy, ICANN will:
- Create additional materials to effectively communicate the value and benefit of ICANN’s multistakeholder model of governance.
- Showcase success stories and highlight specific examples where the ICANN’s governance model has successfully contributed to the delivery of ICANN’s mission, demonstrating its effectiveness through case studies, testimonials, and endorsements.
- Leverage social media platforms to share success stories, case studies, and articles about ICANN’s multistakeholder model of governance.
- Design a survey to solicit feedback from the community, Board, and org to understand their perspectives on ICANN’s governance model. Share the survey findings and planned improvements.

The highlighted area illustrates heightened attention for Strategy 1.3.1.
