EURALO Regional FY22 Outreach and Engagement Strategic Plan designed mainly not to attract new participants to the EURALO activities, but also to identify ways and tools to mobilize our internal community members.

### **1. The "fatigue" of the virtual mode of work and virtual meetings.**

**Solution:**

- new formats of interaction.
- the plan of work for upcoming 6 months.
- Explanation of the benefits and privileges of being part of the EURALO and At-Large.
- f2f meetings on the local level.

### **2. Difficulties of understanding the At-Large function, work, processes and our power for people outside the ICANN bubble.**

**Solution:** an interesting and simple explanation of complex things in all communication channels

### **3. Attracting new people, including Youth:**

**Solution:**

Interaction with YOUTH organizations, showcase of EURALO/At-Large, inviting ambassadors to the dialogue.

### **4. Working with existing members - involving not just "viewers", but participants in activities and work.**

**Solution:**

«Welcome package».

Greeting and self-presentation of new members (Individuals and new ALSes via leaders).

PR of our existing members who actively participate in the ICANN work and support the development of the IG agenda.

Expertise table (professional area of EURALO and At-Large members).

### **5. Receiving feedback from community members and external participants of the ICANN and IG agenda.**

**Solution:**

Surveys, newsletter distribution and an invitation to contribute by feedback, sending the news and updates as a valuable content for our resources.

### **6. Active participation in ICANN and IG events.**

**Solution:**

With ICANN support and opportunity to use the CROP.

Maintaining a calendar of major events (announcement for 3 months ahead) to attract attention, prepare members for participation.

Recommendations related the actual list of events.

Reports of EURALO members about the visiting and participating IG events.
