

EURALO Newsletter

Reporting period is
September 2022

Dear EURALO and At-Large community Members,

September 2022 is the month of the **ICANN75** forum, most of the content in this Newsletter is related to outcomes of this meeting. Thank you for being with us in person and online!

We kindly remind you about unique opportunity to join EURALO DAYS in November, 2022.

From the 8th to the 10th November 2022, EURALO Leaders with support of ICANN staff are organizing the EURALO Days.

Those days will include the General Assembly as such. Capacity building sessions. Meetings with ICANN and friend organizations leaders. And lot of time to allow discussions and networking. We wait for you in Brussels for the EURALO Days.

See you soon in person and remotely!

Sébastien Bachollet
Chair of EURALO

Please kindly note that the ICANN75 GAC Communiqué is now available:

<https://gac.icann.org/contentMigrated/icann75-kuala-lumpur-communicue>

“Key issues covered by the report closely align with those at the top of the At-Large agenda and include: Capacity Building, DNS Abuse, Universal Acceptance, IDNs and New gTLDs as well as Subsequent Procedures and Underserved Regions. Moreover, on p. 5 you will find reference to the joint efforts of our two communities and the GNSO regarding subsequent rounds of new gTLDs. There „The GAC confirmed its commitment to engage with the GNSO Council as well as ALAC in seeking a mutually agreeable solution on Closed Generic applications in the next round of New gTLDs, in keeping with the GAC Beijing Advice on the matter whereby “exclusive registry access should serve a public interest goal”. While the GAC positions on Closed Generics „will be guided by said advice as well as prior GAC consensus inputs to the Subsequent Procedures for New gTLDs Policy Development Process (SubPro PDP)”, GAC plans to hold internal „regular exchanges between the six (6) GAC designated representatives to the facilitated dialogue and the GAC are envisaged to take place intersessionally”.

Any further updates on this and other GAC processes of interest to the At-Large will be shared on the list in due course.

Thank you and kind regards,
Joanna Kulesza

ALAC/EURALO
At-Large Liaison to the GAC”

Dr. Tarek Kamel Award for Capacity Building Honors
Wolfgang Kleinwächter

19 September 2022

“ICANN Board announced that Wolfgang Kleinwächter is the recipient of the 2022 Dr. Tarek Kamel Award for Capacity Building.

Maarten Botterman, ICANN Board Chair, announced the Board's selection during the Welcome Ceremony for ICANN75 in Kuala Lumpur, Malaysia. The ICANN Board recognizes Kleinwächter's significant efforts in capacity building on a local, regional, and global scale. Particularly notable is Kleinwächter's pioneering work for the local and regional Internet Governance School concept. It earned the ICANN Board's deep appreciation.

Kleinwächter participated in the award ceremony remotely and thanked the ICANN Board for the recognition. A video of the award ceremony will be published later.

Wolfgang Kleinwächter is a Professor Emeritus of International Communication Policy and Regulation at the University of Aarhus in Denmark. He has been involved in Internet governance issues since the early 1990s. As the founder of the Summer School on Internet Governance and the European Dialogue on Internet Governance, Kleinwächter is a longtime member of the ICANN community who has held various roles in ICANN community groups and structures, including:

At-Large community

Generic Names Supporting Organization Council

ICANN Board of Directors

ICANN Nominating Committee”

Congratulations, dear Wolfgang!

ICANN org Call for EOIs: Chair, GNSO Guidance Process for Applicant Support Working Group

ICANN announced that San Juan, Puerto Rico has been selected as the location for the first ICANN Public Meeting of 2024.

The ICANN79 Community Forum will be held from 2–7 March 2024 at the Puerto Rico Convention Center.

This will be the third ICANN Public Meeting to be held in San Juan.

In the wake of Hurricane Fiona, our thoughts and prayers are with the people of Puerto Rico. We look forward to seeing them in 2024.

During the ICANN 75
Maureen Hilyard handed over the keys to Jonathan Zuck,
new ALAC Chair.

We would like to thank Maureen Hilyard
for the years of leadership,
welcome and wish good luck to Jonathan Zuck. let us quote Jonathan:

"I hope you'll join me in advancing the fine work of both Alan and Maureen in streamlining the operational overhead of At-Large processes and, through the work of liaisons, at multiple levels, minimizing redundancy so we maximize the contributions of our volunteers. The interests of individual end users are paramount, in any consideration of ICANN policy and only become more so as more and more people find their way online. If elected, I will have one primary goal: increasing At-Large influence, within ICANN. We will accomplish this by maintaining a laser like focus on individual end user interests and engaging in consensus-based outreach both inside and outside of ICANN. Thank you for considering me for your next Chair".

The Plenipotentiary Conference, the supreme decision-making body of the International Telecommunication Union (ITU),

opened on 26 September in Bucharest, Romania.

At this highest-level meeting, 193 Member States are set to agree on ITU's strategic and financial plans, leadership, and direction for the next four years.

Member States have elected Ms Doreen BOGDAN-MARTIN of the United States as the next Secretary-General of the International Telecommunication Union (ITU).

<https://www.wired.com/story/2022-itu-secretary-general-election/>

“According to their election platforms, Bogdan-Martin and Ismailov signal the same core objective: connecting every person in the world to the internet and cellphone service by 2030. The two candidates, however, represent fundamentally different visions for the future of the internet. Bodgan-Martin’s campaign has focused on her track record of navigating the complex machinery of the United Nations body. Ismailov, meanwhile, has promised a “humanization” of telecommunications infrastructure—and has invoked his candidacy as a way to reject American “dominance” online.”
