Evolving the DNS Abuse Conversation: An end user's perspective - The Role of At-Large
Submitted by Hadia Elminiawi

Brief Description
This session is a follow up on ICANN73 plenary session "Evolving the DNS abuse conversation." The session will focus on the role of the At-Large community in mitigating Domain Name Abuse. Exploring At-Large role as an advocate for end users in mitigating domain name abuse resulting from maliciously registered domain names as well as compromised websites.

Rationale/Desired Outcomes
An outline to the possible role of the At-Large community in mitigating DNS abuse resulting from maliciously registered domain names and compromised websites.

Which, if any, other community groups do you plan to involve in your session? Please explain your plans for working cooperatively with the group(s), including your contacts, skill sets sought, etc.
The Domain Name Abuse Institute, the GNSO, TBD

Session Leaders/Facilitators and Panelists/Presenters
Hadia ElMiniawi, Joanna kulesza, TBD

Under which At-Large Priority Activities 2022 work track area does this topic fall?
Policy advice

Additional information or comments
Information in relation to session leaders, presenters and community members involved will follow.
