Council Small Team on DNS Abuse: Deep Dive & Discussion

- Team solicited input from SOs and ACs. Input is being analyzed in terms of whether GNSO can and/or should act on it
- General consensus that efforts should be focused/nimble. Hesitation to distract from other work in the community.
- Feedback from Compliance gave clearer (than usual) idea of how they view their authority under existing contracts.
- Next step is to try to form recommendations by ICANN 75

GDS Summit Preview: Topics for Discussion

- Targeting late October/early November for a 2022 GDS Summit
- Volunteers needed to plan the agenda
- Topics to cover at the Summit
