APPROACH: STEPS TO SUCCESS

- Announce each meeting 10 minutes before it starts to arouse curiosity and remind members. Use a hook (clever expression) to encourage participation
- Use email, twitter, and Facebook to post announcement in #1 with appropriate set of hashtags, brief description of the meeting, zoom link, Livestream link (if available) and an action call to participate and share with their own Social Media (SM) channels.
- After each meeting ends, use email, twitter, and Facebook to post a brief summary of the meeting with appropriate set of hashtags, links to the meeting recording and an action call to share with their own SM channels. Use screen capture of the session and post picture of session and observations
- Assign SMWG members, RALO members, ALAC, staff and others; one per meeting, to perform 1, 2 and 3.

- Use scheduling software (e.g., Buffer, Hootsuite, etc.) to pre-program 1 and 2 as much as possible to automate
- Identify which meetings could be live streamed and announced in 1.
- Create and use a SM Tool kit to be disseminated among At-Large. This tool kit is to be used by:
 - At-Large members to disperse their own At-Large related free-will messages through their own SM channels.
 - Create and use Facebook frames and Zoom backgrounds for At-Large ICANN 73 Pre-Week and CANN72 AGM.
 - Use and track metrics for the SM channels identified for this campaign.
 - Provide summary report on results

Final Thoughts: DESIRED OUTCOMES

Increase participation, discussion, and further engagement.

Recommendations:

- Involve the Next-Gen to share the topics of their research before the formal presentation.
- Involve actions at the ICANN Fellowship program
- Promote more visibility to the lectures promoted by the RALOS that are of general interest to the public (i.e: Blockchain, Ciber Security)

- Publish the metrics established in ICANN meetings always challenging NEW goals.
- It should be responsible for establishing the social media strategy for At-Large for the whole year.
- The round-robin of SMWG leaders has lots of merit, but the fact is, that many of us need some guidance in what works and what does not.

See you there!
