Mandated by **Bylaws**

Conducted by the community

◉ **Accountability and Transparency Review (ATRT):** Review of ICANN's execution of its commitment to maintain and improve robust mechanisms for public input, accountability, and transparency so as to ensure that the outcomes of its decision-making reflect the public interest and are accountable to the Internet community.

◉ **Competition, Consumer Trust and Consumer Choice Review (CCT):** Review to adequately address issues of competition, consumer protection, security, stability and resiliency, malicious abuse issues, sovereignty concerns and rights protections prior to increasing the number of new gTLD domains under an application process initiated after 1 October 2016.

◉ **Registration Directory Service Review (RDS-WHOIS):** Review to assess the effectiveness of the then current gTLD registry directory service and whether its implementation meets the legitimate needs of law enforcement, promoting consumer trust and safeguarding registrant data.

◉ **Security, Stability and Resiliency Review (SSR):** Review of ICANN's execution of its commitment to enhance the operational stability, reliability, resiliency, security, and global interoperability of the systems and processes, both internal and external, that directly affect and.or are affected by the Internet's system of unique identifiers that ICANN coordinates.

ICANN

Planning Process Roles and Responsibilities

Community

Prior to the development of the draft plans by org, the community is consulted about the planning process, timeline, assumptions and priorities

ICANN org

ICANN org develops the draft plans based on the input received

Community

Community provides further input to the draft plans via Public Comment Proceeding

ICANN org

ICANN org revises the draft plans where applicable based on input received

Board

ICANN Board considers and adopts the plans

Community

Empowered Community Period

- The **planning prioritization process is a new step** during the "consultation" phase of the draft plans development process
- This newly added step will provide the community with an opportunity to establish a community-defined order of priority that the org should take into consideration while developing detailed work plans and resource allocations in the Operating Plan and Budget process.

Scope of Activities To Be Prioritized

**Participants will prioritize the** **Board approved** **Specific Reviews recommendations that are** **to be implemented, subject to prioritization**
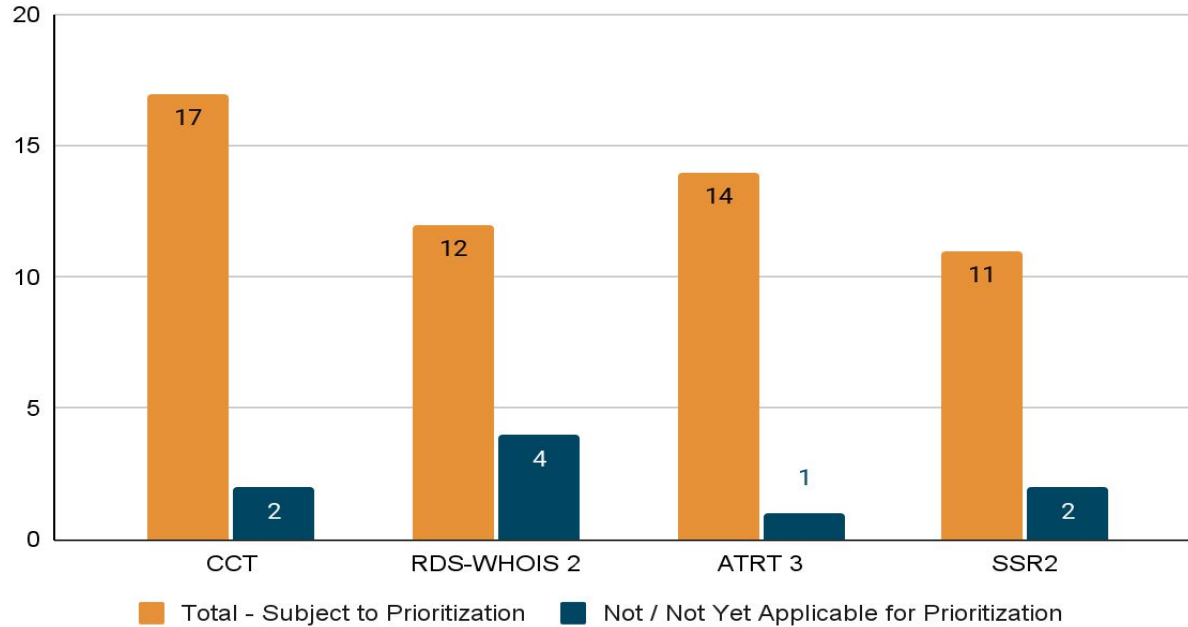

Scope of Activities To Be Prioritized

Two of the 14 Rec were split into additional three components. Thus, there will be 17 components for the group to discuss and prioritize.

The five Rec consists of 15 components. Among the 15 components, one is completed. Thus, there will be 14 components for the group to discuss and prioritize.
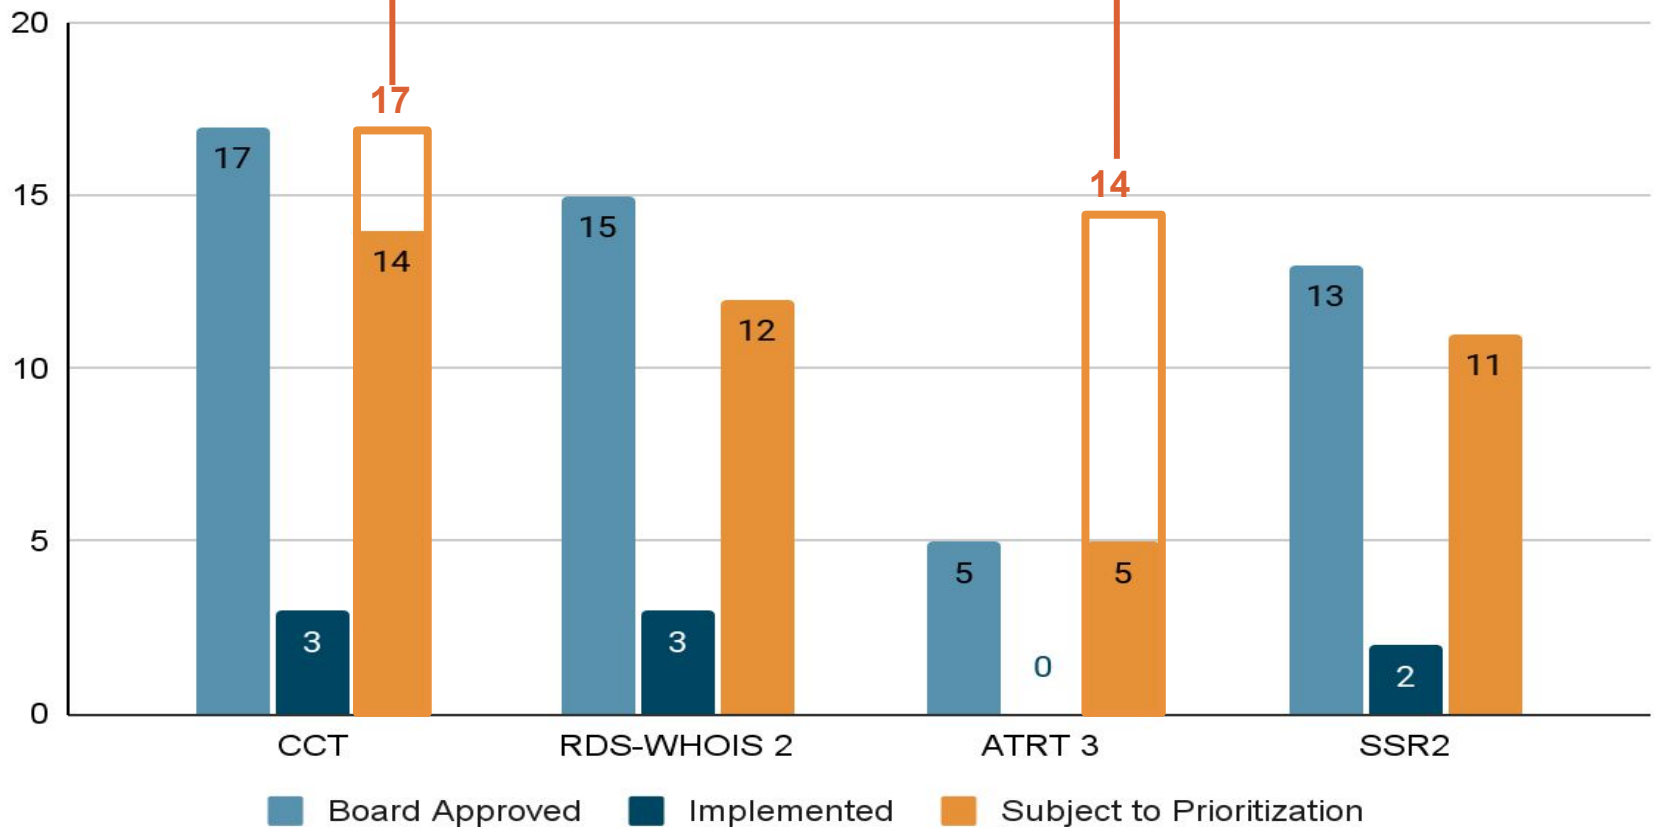

List of Activities To Be Prioritized

- There are nine Board approved recommendations that are either not applicable or not *yet* applicable for prioritization at this point:
  - One rec from ATRT3 is not subject to prioritization
  - The other eight recommendations have dependencies as such they are not actionable at this point until
- So, total rec / components to be discussed is 45.
