CC ReviewFramework

Subject of Review	Issue for review	Decision being contested	who can apply	deadlines for applying	Questions/issues	Other Mechanisms
Delegation (a completely new ccTLD as a result of MA action with respect to ISO-3166)	Failure to accept an application	confirmation of rejection by PTI to the applicant	Applicant	30 days after decision is published or Tolling for other mechanisms (TBD)	Is the confirmation public?	PTI internal escalation Mediation – TBD by this group
Delegation (a completely new ccTLD as a result of MA action with respect to ISO-3166)	Contesting an approved but pending delegation	confirmation of rejection by PTI to the applicant	Losing Applicant(s)	30 days after decision is published or Tolling for other mechanisms (TBD)	Do the losing applicants receive notice from PTI? Timing vs going to the Board has to be considered	PTI internal escalation Mediation – TBD by this group
Delegation (a completely new ccTLD as a result of MA action with respect to ISO-3166)	Contesting an approved but pending delegation	ICANN Board Minutes	Anyone	unclear	Need to look into timing considerations to use reconsideration vs when the ccTLD is actually inserted in the root (basic principle that once a ccTLD is in the root it can only be transferred via a Transfer or a Revocation/Transfer.).	Reconsideration request
Transfer	Failure to accept an application	PTI confirmation (is this public?)	Applicants	30 days after decision is published or Tolling for other mechanisms (TBD)		PTI internal escalation Mediation – TBD by this group
PTI action not completed in a reasonable time	Can apply to failure to delegate or transfer	Failure of PTI to reach a decision	Applicant or Manager	no specific time limitation as the request should be ongoing.	Need to establish a minimum threshold for using this.	PTI internal escalation Mediation – TBD by this group
Retirement	Change of status of an exceptionally reserved code which is a ccTLD and IFO deciding to retire it because of the change.	PTI Notice of Retirement (Board approval not required)	Current ccTLD Manager	30 days after Notice of Retirement is sent orTolling for other mechanisms (TBD)		PTI internal escalation Mediation – TBD by this group

Retirement	Change of status of an exceptionally reserved code which is a ccTLD and IFO deciding to retire it because of the change.	Board Approval of removal from the root.	Anyone	Unclear.	What are the time limitation on reconsideration requests? Should the removal from the Root be delayed until this time limit is exhausted?	Reconsideration request
Retirement	Failure to grant an extension (or grant the extension requested?)	PTI notice to applicant rejection request	Current ccTLD Manager	30 days after decision is published or Tolling for other mechanisms (TBD)		PTI internal escalation Mediation – TBD by this group
Revocation	Contesting an approved revocation by PTI	PTI notice to the Manager?	Current ccTLD Manager	30 days after decision is published or Tolling for other mechanisms (TBD)	We really need to understand what the process would be for this - when does this go to the Board for approval, what notice is given to the revoked manager etc.	PTI internal escalation Mediation – TBD by this group
Revocation	Contesting the transfer which follows a revocation	PTI Notice?	Applicant to be the new manager which was not accepted.	30 days after decision is published or Tolling for other mechanisms (TBD)	We really need to understand what the process would be for this - when does this go to the Board for approval, what notice is given to the revoked manager etc.	PTI internal escalation Mediation – TBD by this group
Revocation	Contesting an approved revocation by PTI	ICANN Board Minutes	Anyone	Unclear.	Need to look into timing considerations to use reconsideration vs when the ccTLD is actually transferred.	Reconsideration request
Failure to accept a proposed IDN ccTLD string.	Contesting ICANN rejection the proposed string for an IDN ccTLD	Unclear what officially constitutes a rejection (IDN policy - TBD)	Applicant	30 days after decision is published or mediation completed?	Uncertain if applicable to this PDP at this point. Applicant feels their string proposal meets the requirements (does ICANN produce a detailed explanation of the reasons for the rejection? IDN ccTLD Policy - TBD)
