RSSAC Caucus RSSAC001v2 Work Party Teleconference#13 Chat Transcript

19:01:17 From ASHISH AGARWAL to Everyone:

good evening every one

19:01:32 From Ozan Sahin - ICANN Org to Everyone:

Welcome to RSSAC001v2 Work Party Call#13!

Link to working document: <https://docs.google.com/document/d/1fTRTplssJUayL6XD-qAmkGltXOxmeuPe/edit?usp=sharing&oid=117614734783901341469&rtpof=true&sd=true>

19:06:47 From Lord Warren "Ace" Kumari to Everyone:

Has anyone else been having odd / missing video with Zoom over the last few days? I've only experienced it with ICANN's zoom instance, and only over the last few days. I see "You are viewing Ozan Shain - ICANN Org's screen", but the box is empty. I also see people's avatars, but if they display video, their "box" is blank..

19:07:01 From Paul Hoffman - ICANN Org to Everyone:

Looking fine here

19:07:20 From Lord Warren "Ace" Kumari to Everyone:

It feels like the video stream simply doesn't arrive.

@Paul: Ok, good to know.

19:07:29 From Marc Blanchet to Everyone:

Fine here. Used zoom for other meetings in the last days, no issue.

19:09:56 From Lord Warren "Ace" Kumari to Everyone:

Only correlation I can think of is that it started after installing the latest Ventura 13.3.1 (a) update. This was also the first time that Apple used the Rapid Security Response solution to push out a change...

19:10:23 From Paul Hoffman - ICANN Org to Everyone:

I am on 13.3.1(a), no problem.

19:14:28 From Marc Blanchet to Everyone:

On 13.3.1 (not yet installed the RSR patch).

19:18:09 From Ozan Sahin - ICANN Org to Everyone:

Hi Warren. I see you reentered the Zoom room. Are you still having issues?

19:27:12 From Lord Warren "Ace" Kumari to Everyone:

@Ozan: Nope, all good now, thanks.

19:27:21 From Ozan Sahin - ICANN Org to Everyone:

Reacted to "@Ozan: Nope, all goo..." with 👍

19:32:49 From Marc Blanchet to Everyone:

Disagree with first comment of Warren, specially with: « At the time of writing ». Things change over time and I see no value of just « at this time ».

19:33:50 From Lord Warren "Ace" Kumari to Everyone:

Okey dokey.

19:33:55 From Marc Blanchet to Everyone:

I don't think the goal is to reassure community. I think the goal is to just be transparent to a key « feature » of the RSS.

19:42:05 From Paul Hoffman - ICANN Org to Everyone:

1. Remove it, meaning that there is no technical expectation on an RSO.

2. Change it to indicate that each RSO is expected to meet each requirement in BCP 40, while admitting that BCP 40 is about the RSS as a whole.

3. Remove the linkage to BCP 40, and list the actual requirements that RSSAC wants (which is probably the list from BCP 40, plus maybe more.)

19:43:56 From Marc Blanchet to Everyone:

We could say that BCP 40 is for the RSS and the RSOs as a whole should make sure that together they comply to BCP 40.

19:51:55 From Marc Blanchet to Everyone:

I disagree with Paul to remove. I think that section (written as I suggest) should remain because it creates a service expectation to each RSO: they have to work together to comply to BCP 40: so it is an expectation.

19:53:50 From Marc Blanchet to Everyone:

Agree with Wes latest comment.

19:54:18 From Marc Blanchet to Everyone:

Sure Duane

19:54:44 From Marc Blanchet to Everyone:

Ok Paul

19:55:52 From Ozan Sahin - ICANN Org to Everyone:

Noted, Duane.

19:58:37 From Marc Blanchet to Everyone:

Wrote a proposed text for our discussion on RSO compliance for BCP40

19:58:53 From ashish agarwal to Everyone:

good night all
