

Rogue RSO Work Party (WP) Call #12

Tuesday, 23 March 2021 at 14:00 UTC

Work Party Google Doc:

https://docs.google.com/document/d/1XS2dll_Sv1f7e4pA19QHnHEmLgRSkgEI2-zD7Tp0hog/edit

Draft Agenda

1. Introduction to Work Party and current progress
2. Discussion of recent changes to document
 - a. 2nd-to-last paragraph of the introduction where we restate that this document only applies to the behaviors of IANA-designated RSOs. We are specifically NOT discussing behaviors of non-RSO responders.
 - b. 2nd paragraph of section 3 discussing that the future governing body has the task of determining intent.
 - c. Removal of subjective example #2 "Reduction in trust" -- we cannot find a good way to express the difference in intent between what we can imagine as rogue versus a legitimate criticism of the RSS.
 - d. Removal of the recommendations -- we do not need to make recommendations, and the recommendations listed (define process or complete list of rogue behaviors, develop detection techniques, develop mitigation) are already addressed in RSSAC037
 - e. Removal of Appendix A on guiding principles, instead put a placeholder to reference an upcoming RSSAC document that focuses on the principles.
3. Writing Assignments
4. Discussion on whether the work party document reached a stable state for a formal RSSAC Caucus review
5. Wrap Up
