

Statement of Interest to volunteer in the WHOIS Review Team
Eduardo Diaz
ISOC-Puerto Rico
NARALO Member

1. Current vocation, employer and position:

I am an Electrical Engineer with more than 30 years of experience in Telecommunications and Information Systems. Currently, I am the President of my own company - D Consulting Group, Inc. - which consist of only one employee (me).

2. Type of work performed in #1 above:

I provide consulting services mostly related to the area of Information Systems Engineering. Also, I design and develop web applications for several clients.

3. Identify any financial ownership or senior management/leadership interest in registries, registrars or other firms that are interested parties in ICANN policy or any entity with which ICANN has a transaction, contract, or other arrangement.

I do not have any financial ownership or senior management/leadership interest in registries, registrars or other firms that are interested parties in ICANN policy or any entity with which ICANN has a transaction, contract, or other arrangement.

4. Identify any type of commercial or non-commercial interest in ICANN GNSO policy development processes and outcomes. Are you representing other parties? Describe any arrangements/agreements between you and any other group, constituency or person(s) regarding your nomination/selection as a work team member. Describe any tangible or intangible benefit that you receive from participation in such processes. For example, if you are an academic or NGO and use your position to advance your ability to participate, this should be a part of the statement of interest, just as should employment by a contracted party, or a business relationship with a non- contracted party who has an interest in policy outcomes.

I do not have any type of commercial or non-commercial interest in ICANN GNSO policy development processes and outcomes. Also, I do not have any

arrangements/agreements between me and any other group, constituency or person(s) regarding your nomination/selection as a work team member.

I am interesting in working in the WHOIS Review Team because I can apply my analytical skills to the subject, understand that the final outcome (if any) will have an effect on anybody that uses the Internet and also because I want to get more experience/knowledge in the ICANN bottom-up consensus driven policy environment and policy review processes in general.

5. Are you a member of a GNSO Constituency / Stakeholder Group, and if yes, which one(s)?

No, I am not a member of a GNSO Constituency / Stakeholder Group.

A handwritten signature in black ink, appearing to read "Howard H. ...".
