3. Identify any financial ownership or senior management/leadership interest in registries, registrars or other firms that are interested parties in ICANN policy or any entity with which ICANN has a transaction, contract, or other arrangement.

I work with Computer Frontiers which is the mother company of Uganda Online. Uganda Online is contracted to ICANN as the registrar of the .ug ccTLD.

4. Identify any type of commercial or non-commercial interest in ICANN GNSO policy development processes and outcomes. Are you representing other parties? Describe any arrangements/agreements between you and any other group, constituency or person(s) regarding your nomination/selection as a work team member. Describe any tangible or intangible benefit that you receive from participation in such processes. For example, if you are an academic or NGO and use your position to advance your ability to participate, this should be a part of the statement of interest, just as should employment by a contracted party, or a business relationship with a non- contracted party who has an interest in policy outcomes.

I have no commercial or non-commercial interest in ICANN GNSO policy development processes and outcomes. Even though I might quote other people's views as examples, I will solely be responsible of whatever I support.

5. Are you a member of a GNSO Constituency / Stakeholder Group, and if yes, which one(s)?

I am not a member of any GNSO constrituence/stakeholder group.
