

*Internet in
troubled times:
risks, resilience, hope*

6 – 8 June 2023
Tampere, Finland

The European Dialogue on Internet Governance (EuroDIG) is an open multi-stakeholder platform to exchange views about the Internet and how it is governed. First organised in 2008, it fosters dialogue and collaboration with the Internet community on public policy for the Internet – culminating in an annual conference that takes place in a different European city every year. EuroDIG ‘Messages’ are prepared and presented to the Internet Governance Forum (IGF).

- City Hall Reception 7 June

Call for issues

The call for issues ended on 31 October 2022. This call was the first (but not the last) opportunity for input, and we will now extract from these results potential Focus Areas for the 2023 EuroDIG programme. Those results will be presented and further discussed at the IGF in Addis Ababa, with the aim to have agreed on the Focus Areas by the end of the year. However, input will still be possible and for this reason the online form to submit issues remains open.

Call for issues

The call for issues ended on 31 October 2022. This call was the first (but not the last) opportunity for input, and we will now extract from these results potential Focus Areas for the 2023 EuroDIG programme. Those results will be presented and further discussed at the IGF in Addis Ababa, with the aim to have agreed on the Focus Areas by the end of the year. However, input will still be possible and for this reason the online form to submit issues remains open.

Your proposals are still welcome!

Thank you

See you in Tampere!
