- ICANN has input an Advice document and inputs the Action Request Register. ICANN will reach out to the Advice Provider to confirm receipt of the document.
- ICANN is working to understand the Advice. ICANN org will reach out to the Advice Provider to ensure the mutual understanding of any actionable items contained in the Advice.
- ICANN is evaluating the actionable items and prepares materials for Board consideration. ICANN will reach out to the Advice Provider on evaluation and consideration decisions.
- Consideration of this Advice item has been deferred pending the completion of external activities. ICANN org will notify the Advice Provider if consideration of the Advice is deferred.
- ICANN has determined that the Advice item will be implemented. ICANN will reach out to the Advice Provider with implementation progress reports.
- Implementation of the Advice item has been deferred pending the completion of external activities. ICANN will notify the Advice Provider if implementation of the Advice item is deferred.
- Advice item has been implemented and is pending confirmation by the ICANN Board, or the Advice item contains no action for the Board and is pending confirmation by the Advice Provider.
- Advice item has been processed as much as is relevant and is considered complete; no work is outstanding from the perspective of Board Advice. (Note that related implementation work may have been integrated into ICANN's ongoing operations or other initiatives).
