

GGP Applicant Support

- The Guidance Process (GGP) Applicant Support was approved by the GNSO Council on 25 August 2022
- The GGP has held 4 meetings (21 Nov, 5 Dec, 19 Dec, 9 Jan)
- Applicant Support is covered in Topic 17 of the SubPro Final Report and consists of Recommendations and Implementation Guidance which will form the basis of the GGP work
- **The purpose of the GGP is to provide guidance to aid the implementation of SubPro Recommendations, and not to modify any recommendations or implementation guidance, not to develop any new policy.**
- Important reference documents are :
 - 2011 Final Report of the Joint Applicant Support WG and the
 - 2012 Implementation of the Applicant support Programme

Two Completed Tasks of the GGP

TASK ONE:

Review in detail:

*2011 Final Report of the Joint Applicant Support Working Group

*2012 Implementation of the Applicant Support program

These will serve as resources for other Applicant Support related questions / tasks.

TASK TWO:

Working with ICANN Org staff as appropriate, identify experts with expertise to aid in Tasks 3, 4 & 5.

These experts are to help develop appropriate program elements related to outreach, education business case development and application evaluation (IG 17.8)

TASK THREE

Analyse the set of metrics in IG 17.9 and propose which ones should be prioritised. The set of metrics is NOT limited to what is in 17.9

TASK FOUR

Identify any other appropriate metrics that could measure the success of the AS Program. And at the same time, propose

- *how data can be collected,
- *how metrics can be measured,
- *who can collect the data
- *what represents success.

TASK FIVE

Consider and suggest how the “outreach, education, business case development and application evaluation” elements of the AS Program may be impacted by identified metrics and measures of success. And perhaps we can suggest an approach to best assist these activities

Timeline to produce our Final Report

Draft Timeline – December 2022 to September 2023

Meetings	Tasks
05 and 19 December 2022	Work Plan & Timeline development, Tasks 1 & 2
02, 16, 30 January 2023	Finalize Work Plan & Timeline – to GNSO Council 09 Jan 2023; Finalize Tasks 1 and 2; Begin Tasks 3, 4, & 5 (metrics)
13 & 27 February 2023	Finalize Tasks 3, 4, & 5 (metrics); Task 6 (Finance)
13 and 27 March 2023, including ICANN76	Finalize Task 6 (finance), develop Draft Report
April-May 2023	Continue Draft Report development
May-June 2023, including ICANN77	Publish Draft Report; begin public comment review
July-August 2023	Finish public comment review & develop Final Report
September 2023	Finalize Report and deliver to Council
