AT-LARGE ADVISORY COMMITTEE
ALAC Statement on the Security, Stability & Resiliency
of the DNS Review Team (SSR RT) Final Report

Introduction

By the Staff of ICANN

Julie Hammer, ALAC Liaison to the SSAC and At-Large member from the Asian, Australasian and Pacific Islands Regional At-Large Organization (APRALO), composed an initial draft of this Statement after discussion of the topic within At-Large and discussion of the topic on the At-Large Mailing Lists.

On 25 July 2012, a version incorporating the comments received, was posted on the [At-Large Security, Stability & Resiliency of the DNS Review Team \(SSR RT\) Final Report Workspace](#).

On that same day, Olivier Crépin-Leblond, Chair of the ALAC, requested that Staff open a five-day ALAC ratification on the Statement.

On 30 July 2012, Staff confirmed that the online vote resulted in the ALAC endorsing the Statement with 13 votes in favor, 0 votes against, and 2 abstentions. You may review the result independently under: <http://www.bigpulse.com/pollresults?code=2532Y5KNUdpsH9BzrUpia2Kw>

The Chair then requested that the Statement be transmitted to the Public Comment process, copying the ICANN Staff member responsible for this Public Comment topic.

ALAC Statement on the Security, Stability & Resiliency of the DNS Review Team (SSR RT) Final Report

The ALAC acknowledges the comprehensive work done by the Stability, Security and Resiliency of the DNS Review Team (SSR-RT) in analyzing the extent to which ICANN is fulfilling its commitment to enhance operational stability, reliability, resiliency, security and global interoperability of the Domain Name System (“DNS”). The ALAC notes that the Final Report and its Recommendations have not changed substantially in its meaning or intent, but has taken careful consideration of comments and suggestions provided as feedback from the ICANN Community, and as a result has incorporated extended comment in the text and refined the wording of some recommendations.

The ALAC congratulates the Chair, Dr. Alejandro Pisanty, and all members of the Review Team on the quality of this valuable work and thanks them for their time and efforts. We look forward to working with the ICANN Community to implement its recommendations.
