

AFRALO ACTIVITY REPORT (AUGUST 2013)

The main activities of AFRALO in the month of August 2013 focused on the following points:

1. Activities carried out by AFRALO in Durban

Subsequent to the support provided by Google, AfriNIC, FOSSFA and APC to AfRALO for the Organization of the Durban Meeting, letters of thanks were sent to these organizations on behalf of ALAC and AFRALO, thanking them for their contributions to the success of the activities of AFRALO during the meeting.

Thanks to this support, 15 students, Professors and representatives of NGOs from different cities in South Africa (Cape Town, Centurion, Durban, Johannesburg and Pretoria), were able to actively participate in all of At-Large meetings, including the activities of the public meeting of ICANN and the Fellowship program.

2. Afralo-AfrICANN Scorecard

At the end of the Afralo/AfrICANN joint meeting in Durban, and on the request of the ICANN President and CEO, it was agreed to prepare an assessment report on ICANN responses to the various AFRALO/AfrICANN statements. An inventory in the form of a table was developed by AFRALO in order to keep track of the si-called statements and see if the latter have had an impact on ICANN decisions, particularly those regarding issues affecting the African region.

3. Program for capacity-building for the ATLAS II Summit

An At-Large Summit gathering all ALSes will be held on in parallel with the fiftieth public ICANN meeting which will be held in London from 22 to 26 June 2014. In the framework of the preparation of the Summit, and to ensure its success, it was agreed that a series of trainings will be held for the benefit of the ALSes prior to this Summit.
