

## Draft EURALO Working Programme 2008/2009

After the EURALO board election, its time now to leave procedural debates and to start with working on substance.

The main focus of our EURALO work should be:

- To broaden our basis and to involve more organisations and individuals all over Europe
- To obtain and transmit the end user perspective on the main issues that we are working on such as:

### ❖ **Group A:** Patrick + Frans

- ✓ IPv4 and IPv6: Desirée + Jeanette + Sébastien
- ✓ IDNs: Desirée +
- ✓ DNSSEC: Lutz +

### ❖ **Group B**

- ✓ New gTLDs: Annette (regional Tlds)+ Oliver + Heike +
- ✓ Privacy and Whois: Werner + Frans +
- ✓ Protection of Registrants in relation to Registrars (RAA amendments): Rudi +
- ✓ Price development in the registration sphere:
- ✓ DNS and Freedom of expression: Wolfgang +
- ✓ The primacy of the public interest: Samantha Slade (Yinternet.org) + Heike + Wolf
- ✓

### ❖ **Group C**

- ✓ ICANN Geographic Regions (joint interest with the ccNSO): what countries in?: Andrés +
- ✓ User's participation models within ICANN structures: Rudi + Dessi + Andrés + Sébastien + Wolf
- ✓ JPA: Christopher + Bill + Sébastien

The General Assembly will set-up and/or delete/add the issues of this above-mentioned list.

Our aim is to create working groups/task forces on the different topics submitting working papers to the board and EURALO-list. ALSes who have already focused on some of these issues and are somehow specialised should take a thematic lead on it. (For reasons of better coordination we could refer to [https://st.icann.org/alac/index.cgi?at\\_large\\_policy\\_working\\_groups](https://st.icann.org/alac/index.cgi?at_large_policy_working_groups)).

Once the result of the Summit questionnaire will be finalized, please find the link to the EURALO workspace ([https://st.icann.org/euralo/index.cgi?euralo\\_icann\\_at\\_large\\_europe](https://st.icann.org/euralo/index.cgi?euralo_icann_at_large_europe)).
