

# Rahman Khan - Candidate Statement Of Interest

## SECTION A. Identification and Contact Information

**Poll Heading:** 1a. e-mail address

rahman.khan.john[at]gmail.com

**Poll Heading:** 2a. Alternative e-mail address

Mciwd[at]hotmail.com

**Poll Heading:** 3a. Contact telephone number(s) (Must include your country and area code)

**Poll Heading:** 3b. Contact telephone number(s) (Must include your country and area code)

**Poll Heading:** 3c. Any other numbers/methods you wish to list

**Poll Heading:** 4a. Country/countries of citizenship

Bangladesh

**Poll Heading:** 4b. Country/countries of residence

Bangladesh

## SECTION B. Professional and Educational Background

**Poll Heading:** 1. Provide details of your current job, role, title, employer and affiliations

1. Develop processes and procedures for implementation and support of information and communication technology related policies through various govt. committees (e.g. .BD Domain, Bangla IDN, Broadband Policy, IP Telephony, IPv6 Transition, and Internet Governance)

2. Plan and coordinate solutions in network systems, software and web technologies of BTRC and Ministry of Posts & Telecommunications (MoPT)

3. Plan and coordinate ICT related training courses for BTRC employees Assistant Director (Administration) Bangladesh Telecommunication Regulatory Commission (BTRC)

Amateur Radio Operator

Member, Bangla Academy

Member, Bangladesh Computer Society (BCS)

Member, British Computer Society (BCS)

Member, International Webmasters Association (IWA)

Member, Internet Society (ISOC)

Member, Microsoft Partner Research Panel (MPRP)

**Poll Heading:** 2. Describe your educational and professional history. Provide all information that you believe may be relevant to being an effective member of the ICANN Board

Master of Philosophy (Management Sciences and Information Technology), Institute of Business Administration, Dhaka University, BANGLADESH, Studying

Master of Science in Computer Science and Engineering (Communication Engineering), United International University, BANGLADESH, 2009

Master of Social Science (Political Science), National University, BANGLADESH, 2003

Bachelor of Arts (English Literature), National University, BANGLADESH, 2000

British Council Training on Business English (Upper-Intermediate Level), Dhaka, 2010

APT Training on Basic Technologies for IP Network, NTT-West, Fukuoka, 2009

APNIC Training & Workshop Program on IRME, DNS/DNSSEC, IPv6, IRR, Dhaka, 2009

ITU Training on Fundamentals of Internet Protocol version 6 (IPv6) for the Asia-Pacific Region, Seoul, 2008

ITU Training on Spectrum Management System for Developing Countries (SMS4DC), Dhaka, 2008

Adobe Certified Expert (ACE)

Adobe Certified Instructor (ACI)

Business English Certificate (BEC)

Certified Ethical Hacker (CEH)

Certified in Convergent Network Technologies (CCNT)

Certified Lotus Instructor (CLI)

Certified Lotus Professional (CLP)

Certified Wireless Network Associate (CWNA)

Cisco Certified Network Associate (CCNA)

CIW Certified Instructor (CIW CI)

CompTIA Convergence+ Certified (CCC)

CompTIA Project+ Certified (CPC)

Convergence Technology Professional (CTP)

ITIL v3 Foundation Certificate

Master CIW Designer (MCIWD)

Microsoft Certified Database Administrator (MCDBA)

Microsoft Certified IT Professional (MCITP)

Microsoft Certified Professional Developer (MCPD)

Microsoft Certified Solutions Developer (MCSD.NET)

Microsoft Certified Systems Engineer (MCSE)

Microsoft Certified Technology Specialist (MCTS)

Microsoft Certified Trainer (MCT)

Sun Certified Java Programmer (SCJP)

Test of English as a Foreign Language (TOEFL)

**Poll Heading:** 3. Describe any current and past volunteer community positions, roles and accomplishments. We are particularly interested in similar Board directorship and committee experience

Volunteer, Generic Names Supporting Organization (gNSO) Working Group - Internet Corporation for Assigned Names and Numbers (ICANN)  
Moderator, Bangla IDNwiki (<http://bn.idn.icann.org/>)

**Poll Heading:** 4. List any relevant personal or professional web pages  
<http://www.linkedin.com/in/schemadyn>  
<http://www.twitter.com/schemadyn>

## **SECTION C. Internet Involvement and Interest in ICANN**

**Poll Heading:** 1. Describe how you meet the criteria for the At-Large selected ICANN Board Director position

I have a broad range of knowledge covering most aspects of the Internet technology due to being an ICT Professional for 10 years. I have worked as a Technical Trainer for 7 years in New Horizons Computer Learning Centers, where my area of expertise was Internet Technology and Programming Languages. I have had numerous discussions with experts in the basic protocols of the Internet. I follow with great personal and professional interest legal cases that affect the Internet, and I am naturally drawn to new advances in Internet technology. I am only applying for a position on the Board because I am committed to making ICANN a success.

**Poll Heading:** 2. Describe current and past involvement in, contributions to, and leadership roles in activities and organizations involved in the development and operation of the Internet, its naming and addressing infrastructure and/or its security and stability

Co-author & Reviewer (CCNA Test Items), Cisco Learning Network CoLab Program, 2010  
Persuading MoPT, BTRC and the Internet Community of Bangladesh to become the Host for the 46th meeting to be held 7-12 April 2013 in Asia Pacific.

Program Coordinator, Bangla IDN ccTLD Fast-Track Application Process request submission by Honorable Prime Minister of Bangladesh, 2010

Initiator for the rejuvenation process of the ISOC Bangladesh Chapter, 2010  
Developing the National IPv6 Deployment Roadmap, 2010  
Persuading DNSSEC Deployment in Bangladesh, 2009-2010  
Developing the .BD ccTLD Policy, 2009-2010

Developed the National Internet Exchange Guidelines (Resulted the inclusion of NIX in the International Long Distance Telecommunication Services Policy), 2008-2009

**Poll Heading:** 3. Provide a statement about what you would contribute in the At-Large selected ICANN Board Director position to ICANN and its mission

I believe that ICANN is best placed, best equipped, best prepared and best suited to ensuring that the Internet's enormous potential is fulfilled in the best interests of all its users. For that reason, I am putting myself forward as a candidate to the Board because I believe I possess a set of skills that would prove extremely valuable to ICANN over the next years.

I think the main obstacle to returning to an open and inclusive model of governance is not that people are unwilling or unable to do so, but more that they are uncertain of how to do it effectively. This is where I believe I can be of assistance. I have significant experience in IT technology training provided to company executives on how to use the technology and, just as importantly, how to explain difficult and complex realities openly. If I were accepted, ICANN's interests would be placed above all other concerns. In practice, this would mean providing my service and share my technical knowledge on existing and new technologies with the various stakeholders of my region as well other concerned regions and entities. I believe that with ICANN now widely accepted as the technical authority for the Internet, it should provide a clear voice to the world from that technical perspective – there is certainly no shortage of topics that could do with it: IDNs, URIs, domain names, IPv6, and of course the next-generation networks that will again turn everything on its head. I also believe very strongly in maintaining a single, universal root and so retaining the core characteristic that has made the Internet such an extraordinary force in the past decade. I remain confident that despite all the pressures and enticements for people to move away from this model that the logic of retaining a single root can prove strong enough to act as a catalyst for solving all the problems, past, present and future that the Internet creates. I believe I have a valuable understanding of not only how ICANN works but also how it fits into the bigger picture.

I would like to play a part in steering the future course of ICANN, and I would do so not in order to push any group or party's aims or ambitions but solely as an Internet user in support of the medium itself.

**Poll Heading:** 4. Provide a statement about what you would contribute in the At-Large selected ICANN Board Director position to the At-Large Community

I have followed ICANN extensively since 2006, whether that has been IDNs, IPv6, ENUM, security problems with the DNS, Anycast, or so on. I have also closely followed the WSIS and WGIG processes in which ICANN was an important element. I also understand that I need to stay aware of the needs and issues of the At-Large Community by a level of interaction with the ALAC, RALOs and ALSes.

**Poll Heading:** 5. Please describe specifically how and why you will be able to advance, at the ICANN Board, the interests of the At-Large Community and the broader global community of Internet end-users

The At-Large Community is meant to provide to the Board and the constituencies the voice of individual Internet users. This community would naturally offer the opportunity to create national and regional coordinating forums among participating organizations and individuals and

I would consider myself extremely honored to become a voice on behalf of the broader global community of Internet end-users.

**Poll Heading:** 6. Is there any additional information you would like to submit that would be helpful to the BCEC in making its decision? If so, please summarize it here

Languages Spoken Language Proficiency
