

On behalf of the EURALO leadership team,

I wish you (even if it is a little late) a happy new year, good health and as much as possible joy. We face difficult times, but I am pleased to see a lot of you still participating to ICANN activities.

We were hoping to resume face-to-face meetings after a full 2020 without travel and full of Zoom.

Regarding ICANN meetings, Cancun in March is already virtual. How will be The Hague in June and also EURODIG in Trieste? The decision will be taken by the organizers in the next weeks. As it is in Europe, EURALO need to be ready for either face-to-face or virtual meetings. We start to prepare a f2f General Assembly for EURALO along with EURODIG21.

If we can't travel in June, we are working on the following alternative IGF Global in Poland in December 2021 or EURODIG22.

EURALO start with the support of ICANN Org (both At-large and GSE staff) to organize a Monthly RoundTable (by EURALO). We plan the following

- Tuesday 23 Feb 2021: Monthly RoundTable 2 (by EURALO) "Internet & Jurisdiction: Domain Names issues"
- Tuesday 9 (or 16) March 2021: Monthly RoundTable 3 (by EURALO) "Internet Governance EUROPE vs the rest of the World"

- Tuesday 20 Apr 2021: Monthly RoundTable 4 (by EURALO) "EUROPE, network readiness and digital transformation"
- Tuesday 18 May 2021: Monthly RoundTable 5 (by EURALO) "Brexit & .eu (and other)"

The Monthly RoundTable 1 (by EURALO)
on Tuesday 19 January 2021

"Europe's role in contemporary geopolitics" was a great start.

We also plan to renew the experience of ReadOuts after ICANN meeting in English and French and we will add Spanish.

The ALSes using those languages on Europe are welcome to be co-hosts. At-Large is running 3 main tracks:

- At-Large Outreach & Engagement
- At-Large Consolidated Policy Working Group (CPWG)
- At-Large Operations, Finance and Budget Working Group (OFB WG)

You are all invited to join the calls organized regularly, your voice is important, and the voice of Europe will have more weight.

Amitiés
Sébastien Bachollet
Chair of EURALO

Varzy (France), February 13, 2021

Maureen Hilyard, ALAC Chair

Dear EURALO and the At-Large community members,
we are pleased to start this new year
and the first EURALO newsletter edition
with a message from Maureen Hilyard, ALAC Chair:

Welcome back to ICANN and At-Large,

I hope that 2021 will be a better year for us and that we can all keep ourselves safe and well as the world now works on a vaccination programme that will help us develop an immunity from the coronavirus disease that sadly struck so many during 2020. For nearly a year now we have existed in a totally virtual environment in ICANN. Unfortunately these will continue until ICANN lifts its ban on face-to-face meetings, when it is safe to do so. But with the vaccines kicking in, we hope to eventually get to meet again, if not this year, then with better chances in 2022.

I would like to take this opportunity to thank everyone who participated, and continues to participate, in our At-Large zoom calls. Your presence at the meetings is very much appreciated by the working group and webinar leaders, and we hope you will continue to support At-Large activities and events.

The most pressing activity for us at the moment is ICANN70 at the end of March - originally proposed to be held for its second time in Cancun, Mexico. Nevertheless, while the meeting will again be virtual, it will again be in a different format from the last meeting. This time, it is a four-day meeting with an ICANN Prep week being held two weeks before. We are therefore holding most of our At-Large prep week sessions in the week directly before conference week.

But please help us prepare for a great prep week and conference week, and support our working groups as we continue to add our At-Large support for ICANN's role within the internet domain space.

Have a great year and keep safe and well.

Dear EURALO members,

On behalf of Glenn McKnight, Alfredo Calderon Dean, Eduardo Diaz, the VSIG team of teachers and creators, we would like to invite you to participate in such a great educational project - Virtual School of Internet Governance!

A bit about the school:

The Virtual School of Internet Governance is a free online course using MOODLE with four separate intakes over the next year. Each cohort is limited to 100 students and the September intake is full and November, January and March registration is available. The course is an excellent primer for newbies to Internet Governance and a good refresher to the experienced IG professional. Our approach is be user focused and we encourage students to interact with the discussion threads, Live Chats and weekly Big Blue Button sessions To learn more please visit www.virtualsig.org

Registration is open for September 2021:
