

ICANN67 (vCancun)

Perhaps the main news of February 2020 is the decision to change the format of the ICANN67 forum.

All answers to possible questions about this decision to held the meeting virtually can be found here: <https://community.icann.org/display/atlarge/At-Large+Questions+for+ICANN67>

ICANN67 Now Underway!

The ICANN67 Virtual Community Forum is now in progress. View the schedule <https://67.schedule.icann.org/> and start planning (you may download the ICANN Meetings mobile app now available in the app stores).

The ALAC / At-Large Social Media Working Group invites you to participate in a Virtual #ICANN67 Meeting Twitter Competition. The winner with the most re-tweeted tweet with hashtag #ALAC67 will be announced during the At-Large Wrap Up session on Thursday, 12 March. Good luck!

Interview with Chris Mondini

In February 2020, during an ATRT3 working meeting in Brussels, EURALO Chair Sebastien Bachollet asked several questions to ICANN Vice President, Stakeholder Engagement, Europe and Managing Director for the Brussels, Belgium office, Chris

Mondini. We kindly invite you to read the full version of this interesting interview

<https://community.icann.org/display/EURALO/Interview+with+EURALO+Chair+and+ICANN+GSE+V+for+Europe>

Outreach and Engagement work:

In each RALO were appointed Vice-chairs of the Outreach and Engagement Subcommittee and Social media WG. The EURALO Secretary, Filina Natalia took over these functions.

However, as we understand, this work requires collective active participation and discussion, fresh ideas, so we invite you to join the work of these working groups and processes.

Please indicate your interest to participate in that work by email to staff@atlarge.icann.org

The "Welcome package"

In Individuals` Association we are working on the draft of a guide book for new community members (Individuals or ALS members), as well as for those who just have applied for participation (please note that until the membership is approved, some of the resources will not be available for study, as it is intended only for community members).

This Guide book will help:

- to understand the place, role and purpose of the At-Large Advisory Committee in the ICANN structure as well as the role and place of EURALO and Individuals` Association.
- to find the set of required information for learning how to start the interacting and get involved in the work process (emails, working groups, online and f2f meetings etc)
- to start to navigate all open web resources of ICANN and At-Large.
- to get to know the key people of the local European ICANN, IG community, to understand the wide spectrum of the community members` expertise in order to establish the interaction, to ask substantive questions, and to identify the opportunities for mentoring support.
- to follow the ICANN, At-Large, EURALO news on all communication channels
- to use as excellent open knowledge base - webinars, online courses, videos, infographics and other learning resources offered here.

ALSs UPDATES AND EUROPEAN REGIONAL ACTIVITIES, OUTREACH AND ENGAGEMENT WORK OF EURALO MEMBERS

Domain pulse 2020: Innsbruck, Austria.

20-21 February 2020 Three EURALO members Roberto Gaetano, Wolfgang Kleinwächter and Matthias Hudobnik participated in a panel at the Domain Pulse hosted by nic.at in cooperation with DENIC and SWITCH in Innsbruck.

Title of the panel: The next generation: Lili Leisser, Elisabeth Schauermaann and Matthias Hudobnik confront Internet Governance veterans Maarten Botterman, Roberto Gaetano and Wolfgang Kleinwächter with their ideas and concerns for a better Internet future.

-Discussed topics: Diversity in the area of Internet Governance and the importance of the young voice; WHOIS and the GDPR; dotOrg sale.

-Agenda of the conference: <https://domainpulse.at/dp2020/schedule>

-Pictures of the conference: <https://domainpulse.at/dp2020/fotogalerie>

ALSs UPDATES AND EUROPEAN REGIONAL ACTIVITIES, OUTREACH AND ENGAGEMENT WORK OF EURALO MEMBERS

Safer Internet Day and Youth IGF Movement Russia (Together against Cybercrime, EURALO ALS)

On February 18, 2020, at the Higher school of Economics (Moscow), we held a discussion with students of the E-Business course. The topic of discussion is "Safety kids on the Internet" which measures are being taken and what can guarantee the security of the Internet for users, especially for the most vulnerable – children.

We successfully managed to get away from the restrict format of academic lectures with a monologue of speakers to freedom of expression and active discussion.

The Students, about 40 participants, listened to brief interesting introduction part about opportunities to join the ranks of multistakeholders and take part in the work of IGF (global and regional initiatives), ISOC, ICANN, RIPE NCC, and so on.

And then the youth participants of the discussion gave an expert and knowledgeable opinion about the set of end internet users` problems and continued with examples and suggested possible scenarios for the security of the presence of children and older people on the Internet (personal data protection, bullying, hating and other dangers of network communication, toxic content, access, behavior in the network, responsibility and ethics, etc.).

Coordination Center for TLD .RU/.PФ announces entry into force of updates policies

In Russia, the [Coordination Center for TLD .RU/.PФ announced](#) the entry into force of updated versions of its [Terms and conditions of domain name registration in .RU and .PФ](#) and the [Policy on the procedures applicable to domain name disputes](#).

The *Terms and conditions of domain name registration in .RU and .PФ* now include the list of domain names reserved for government purpose. This change was needed because the *Policy on reserving domain names in the .PФ domain for government purposes* expired on 30 November 2019, but some of the domain names reserved have not been used so far.

The EURid registry, who manages the unified national domain of the European Union countries .EU, has published a report for the 4th quarter of 2019.

The document notes a number of positive developments in the life of the pan-European national domain and the registry itself. However, all these unconditional achievements, unfortunately indicate the fact the .EU domain continues to "dive".

INDUSTRY news

CENTR

Registration standardised metric definitions – German translation added

The Registry-Registrar Data Group (or RRDG) has added German translations for its standardised definitions of common domain registration terms. Find the translations alongside the English version [here](#). If you would like to see other languages added, please [contact the RRDG](#).

The purpose of the list is to give organisations who work with domain names a standardised reference point of clearly-defined terms for them to use in market reporting and business analysis. Creating standards in registration metrics is particularly helpful in situations where registries share data with their registrars. As more registries adopt these standard terms, registrars can more easily consume reports and will have greater consistency in understanding the numbers they get.

CENTR has adopted the RRDG metrics definitions within its data platform (CENTRstats) and encourages all registries and registrars to consider them.

On February 12-13, 2020, the 63rd General Assembly of the Council of European national top-level domain registries (CENTR) was held in the Slovenian capital of Ljubljana, which brought together more than 70 representatives of the national domain registries (members of CENTR). Also during the Assembly were introduced the new Vice President of ICANN in Europe, Chris Mondini. Chris Mondini visited the CENTR meeting to meet representatives of European national registries and tell about ICANN's plans in the European region.
