

Dear APRALO community, thank you, Amir, for nominating me to APRALO VC.

I accept it with honor; as you may know, I have served APRALO previously as vice chair and NomCom Delegate. Having said that, I would like to continue my engagement with various aspects of work within our RALO and At-Large. I have managed and coordinated two APRALO Mentoring Programs with leadership team support, which is an excellent opportunity for many to develop leadership potential. With such long experience and knowledge built through the ICANN/DNS journey, I have much to give back and support our continued efforts to get more engagement with our interested ALSs.

Thanks

Ali AIMeshal
