Q&A will be during and at the end of the presentation

Welcome and Introduction

Agenda

- ICANN's Planning Process Overview
- Draft Five-Year (FY25–29) and One-Year (FY25) Operating Plan Highlights
- Draft Five-Year Financial Plan
- Draft One-Year Budget
- Activity Based Reporting
- Timeline and Next Steps

Planning Process Overview

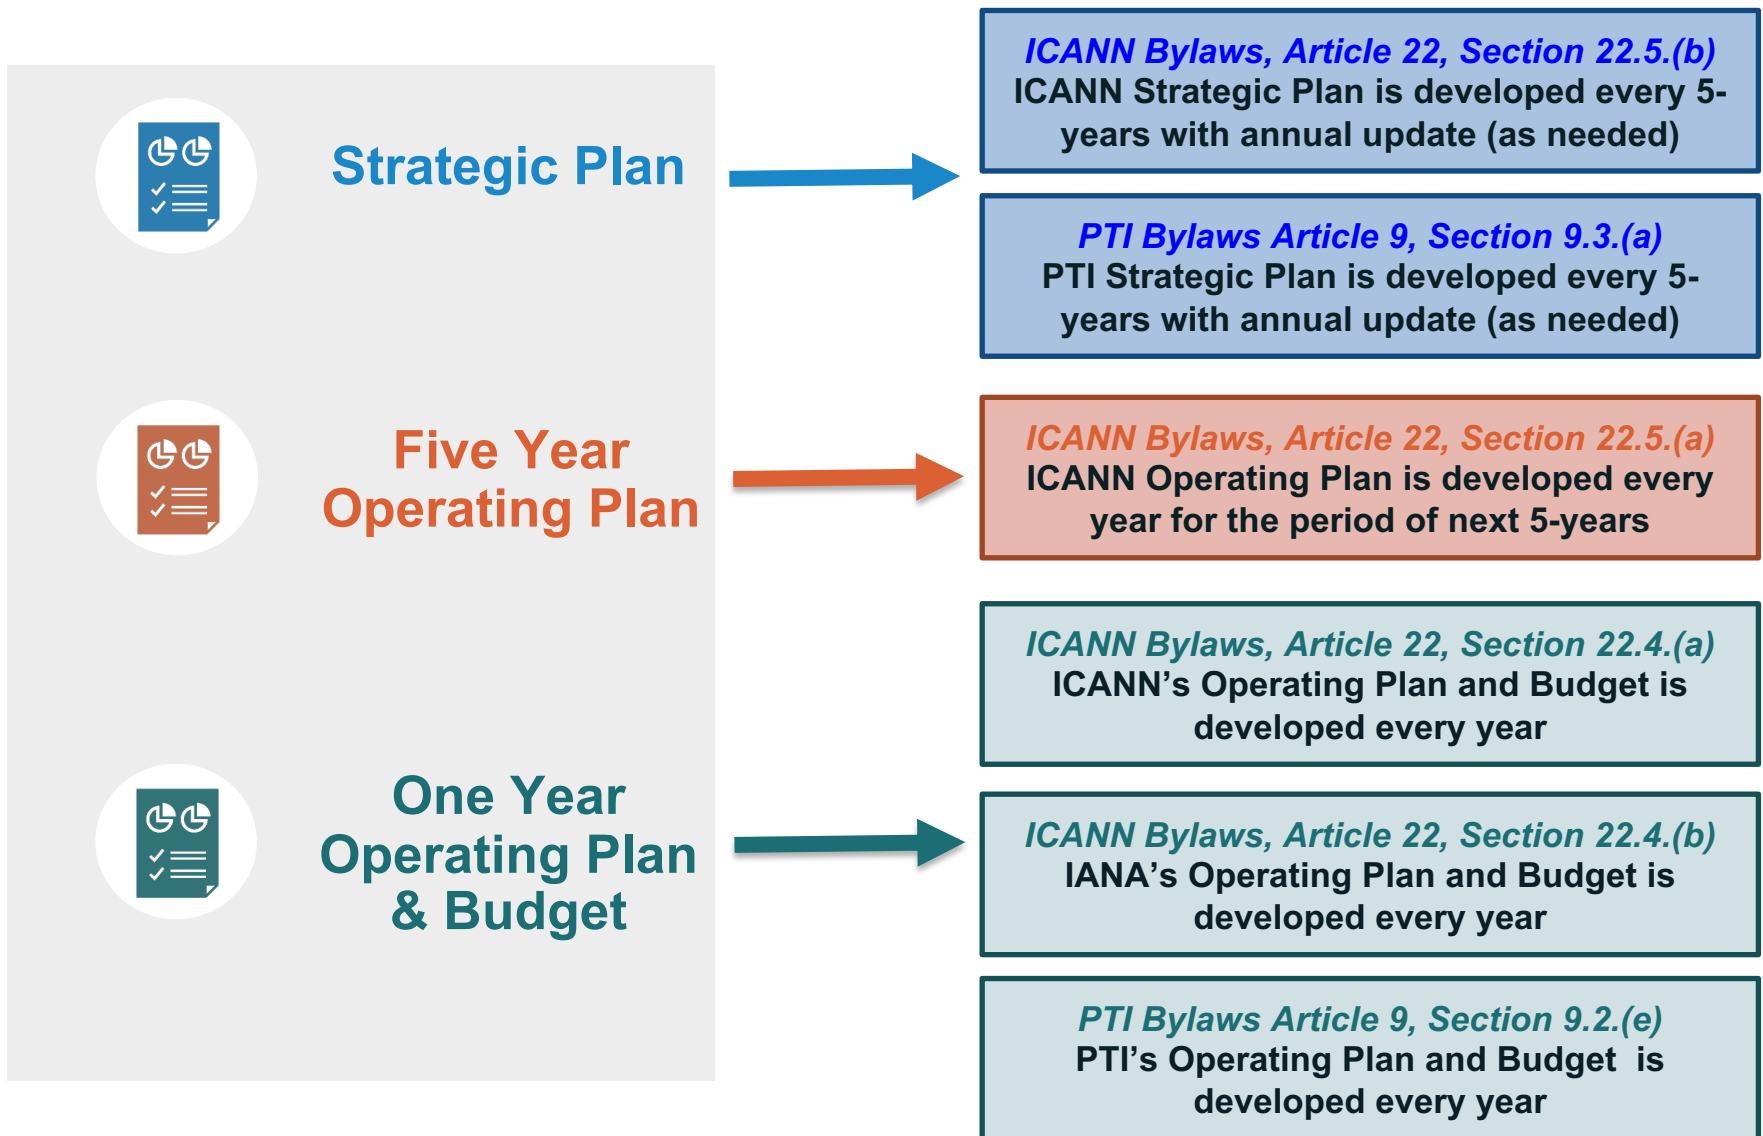

The process of defining ICANN's strategic direction, including its mission, vision, strategic objectives and goals.

The process of determining key initiatives (Operating Initiatives) and what each functional area plans to do (Functional Activities), to achieve the strategic plan.

The process of allocating resources to planned activities, and prioritize activities as needed.

The process of explaining the achievement via a series of mechanisms.

The screenshot shows the ICANN website's public comment interface. At the top, the ICANN logo and tagline "One World, One Internet" are visible, along with search, login, and sign-up options. The main navigation bar includes "GET STARTED", "NEWS AND MEDIA", "POLICY", "PUBLIC COMMENT", "RESOURCES", "COMMUNITY", and "QUICKLINKS". The "Public Comment" section features a description of the process and a "Subscribe to Public Comment Alerts" button. Below this, a red box highlights the "Draft ICANN FY25 Plans" section, which includes a "Get alerts about this proceeding" button with a red arrow pointing to it. To the right, a green box indicates "OPEN: 63 DAYS REMAINING". A timeline (UTC) shows the status: "Open for Submissions" (12 December 2023), "Closed for Submissions" (12 February 2024 | 23:59), and "Report Due" (02 April 2024 | 23:59). A "Provide Your Input" button is also present. At the bottom, there is a section for "Submissions to this Proceeding".

Five-Year (FY25–29) and One-Year (FY25) Operating Plan Highlights

Key FY25 Planning Assumptions

Strategic Plan
Remains
Unchanged

Based on the Strategic Outlook trends impact assessment, the Board has approved no changes to the FY21–25 Strategic Plan

1. Trend Identification

- Data collected on trends, risks, opportunities, and votes for top priorities
- Data Processing

2. Trend Analysis

- New trends or notable shifts in trends and their impacts for ICANN

3. Trend Impact Assessment

- Strategic and tactical recommendations based on the data collected during trend identification

FY21–25 Strategic Plan Objectives

OBJECTIVE 1

Strengthen the **security** of the Domain Name System and DNS Root Server System

OBJECTIVE 2

Improve the effectiveness of ICANN's multistakeholder model of **governance**

OBJECTIVE 3

Evolve the **unique identifier systems**

OBJECTIVE 4

Address **geopolitical issues** impact ICANN's mission

OBJECTIVE 5

Ensure ICANN's long-term **financial** sustainability

Key FY25 ICANN Planning Assumptions (1 of 2)

Strategic Plan Remains Unchanged

On 26 October 2023, the Board resolved that the FY21–25 ICANN Strategic Plan would remain in force and unchanged

Affordability and Balanced Budget

The Draft plans are based on “base” scenario Operations funding projections. ICANN plans for operating expenses to remain at or lower than budgeted funding, drawing from available funding sources

Face-to-face Meetings and Engagement

The Draft plans assume that ICANN public meetings, Board, org and community engagement will occur based on the public meeting schedule

Planning For Board Approved Activities

ICANN begins designing the expected implementation work only when recommendations and policies are Board approved

Key FY25 ICANN Planning Assumptions (2 of 2)

Planning Prioritization Framework

- As part of the FY25 Community Planning Prioritization process, org received input on the priorities of two Board approved activities prioritized by the FY25 Community Planning Prioritization process:
- Specific Review: SSR2 Recommendation 5.3- ICANN external vendor security compliance
 - Specific Review: SSR2 Recommendation 7.5-Publishing Business Continuity and Disaster Recovery plans

Implementation of these two recommendations are already in progress and will also be included in the FY25 plans

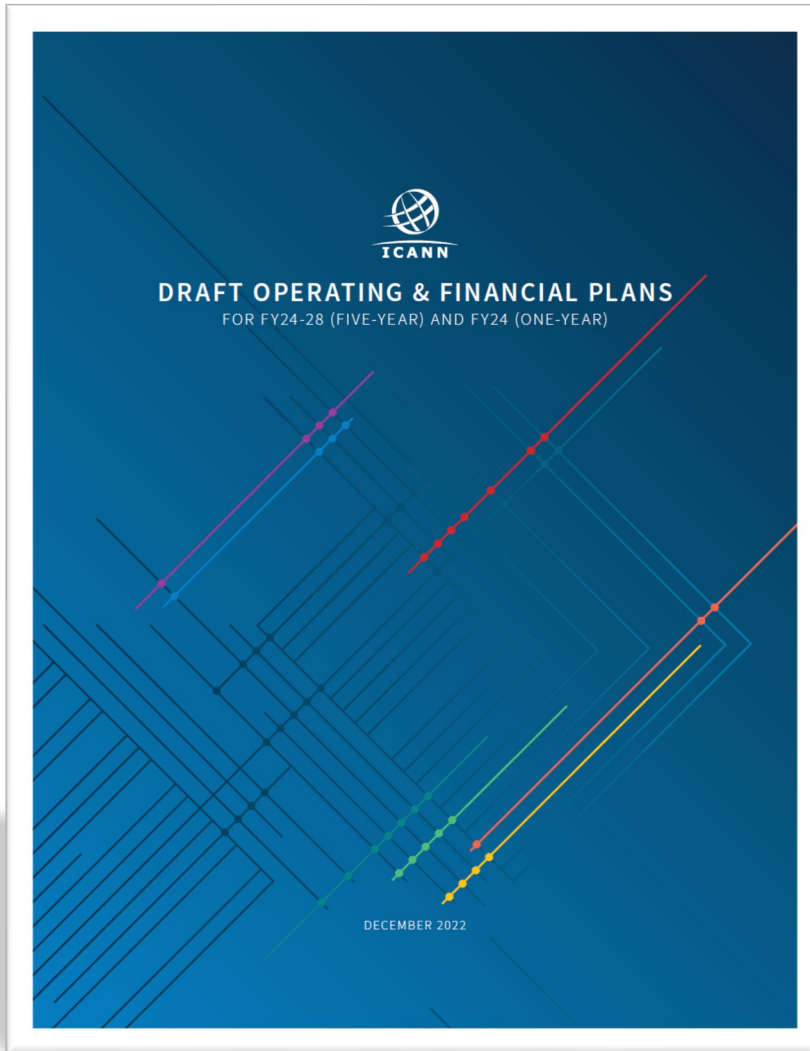

In addition, multi-year projects from previous Planning Prioritization cycles are also included in the FY25 Plans

Please refer to ICANN Rolling Five-Year Roadmap: Policy, Review and Cross-Community Working Group (Appendix B) of the draft plan for the status and estimated timing of policy, review and cross-community working group work

FY25 Operating Plan Highlights

- FY25 is the last year of ICANN’s current Adopted FY21-25 Strategic Plan
- Two out of 11 of the Operating Initiatives were successfully achieved in FY24
 1. Improve the Depth of Understanding of the Domain Name Market Drivers That Impact ICANN’s Funding
 2. ICANN Reserves Operating Initiative on the replenishment of the reserve fund
 - Several of the activities within each of these completed Operating Initiatives will continue as part of ongoing Functional Activities
- A new section has been added on New gTLD Program: Next Round in both the Five and One year plans
- Several of the Operating Initiatives in the Operating Plan also incorporate multi-year projects outlined in the [FY24 CEO Goals](#)
- Operating Initiative name was reorganized to “Support the Evolution and Strengthening of Root Zone Management and the Root Server System” to reflect the Root Server System being used to support Root Zone Management

Five Year and One Year Operating Plan Structure

The Operating Plan includes description of the activities ICANN org will undertake to achieve its Strategic Plan, operate the organization and implement its mission and mandate.

Functional Activities (34 in 5 Service Groups)

Activities of the Functions to:

- ⦿ Implement ICANN's mission and mandate, such as *Contractual Compliance* or *IANA*
or
- ⦿ Operate the organization, such as *Human Resources* or *Finance*

Operating Initiatives (11)

- ⦿ The 11 operating initiatives represent major areas of work that support the strategic objectives identified in the strategic plan

FY25 Service Groups and Functional Activities

The 34 Functional Activities are grouped into five service groups that represent the broad categories of work that ICANN org conducts in fulfillment of its Mission (new in FY25 Grant Program)

Technical & DNS Security

- Office of the Chief Technology Officer
- ICANN Managed Root Server
- IDN and UA
- IANA Functions
- Contractual Compliance

5 Functional Activities

Policy Development & Implementation Support

- Policy Development & Advice
- Policy Research & Stakeholder Programs
- Contracted Parties Services
- Technical Services
- Strategic Initiatives
- Constituent & Stakeholder Travel

6 Functional Activities

Community Engagement & Services

- Global Stakeholder Engagement
- Engagement Programs
- Global Meeting Operations
- Government & IGO Engagement
- GDD Accounts & Services
- Global Support Center
- Global Communications & Language Services
- Ombuds

8 Functional Activities

ICANN Org Governance

- Board Activities
- Office of the President & CEO
- Governance Support
- Nominating Committee Support
- Complaints Office
- Review Support & Implementation

6 Functional Activities

ICANN Org Shared Services

- Planning
- Finance & Procurement
- Risk Management
- Grant Program
- Engineering & IT
- Global HR & Administrative Services
- Security Operations
- Board Operations
- ICANN Offices

9 Functional Activities

FY25 Operating Initiatives Progress and Highlights – page 1 of 2

	Operating Initiatives	Examples of Key Milestones
1	Support the Evolution and Strengthening of the Root Zone Management and Root Server System	<ul style="list-style-type: none"> ● Undergo testing on RSS Metric Monitoring System ● Publish and implement KSK Rollover Policy ● Undergo Root Zone Management System Enhancements ● Implement the next KSK rollover
2	Facilitate DNS Ecosystem Improvements	<ul style="list-style-type: none"> ● Continue maintenance and operation of KINDNS.org ● Advocate and support ICANN Domain Metrics, previously known as DNS-based Authentication of Named Entities (DANE) to enhance the security of the DNS ecosystem in alignment with ICANN’s technical responsibilities. ● Research the application of machine learning to improve the detection and understanding of abusive trends in DNS registrations
3	Evolve and Strengthen the Multistakeholder Model to Facilitate Diverse and Inclusive Participation in Policymaking	<ul style="list-style-type: none"> ● Continue to support the community’s implementation of recommendations from CCWG-Accountability WS2, including assessment of diversity criteria and objectives to ensure global representation in policymaking ● Revise group charters and strive towards overall improvement to the overall stakeholder governance process
4	Evolve and Strengthen the ICANN Community’s Decision-making Processes to Ensure Efficient and Effective Policymaking	<ul style="list-style-type: none"> ● Developing uniform project and program management tools to assist SO/AC groups with planning, managing and tracking their work ● Deployment of the Community Engagement System (CES) to enable consistent and accurate tracking and reporting of stakeholder participation in policy processes and their outcomes
5	Evolve and Improve Internal and External Ethics Policies	<ul style="list-style-type: none"> ● Improve and implement an ICANN org Ethics Program to provide additional guidance and direction for ICANN org staff for FY25–26 ● Collaborate with the ICANN community to develop an ICANN Community Ethics Policy for FY25–26
6	Promote and Evolve the Domain Name System (DNS) Through Open and Transparent Processes That Enable Competition and Open Entry in Internet-Related Markets While Ensuring the Stability, Security, and Resiliency of the DNS	<ul style="list-style-type: none"> ● Implementation of community-developed recommendations, approved and directed by the Board, relating to gTLD registry operators and ICANN-accredited registrars ● Planning and implementation of an operational infrastructure (systems, processes, and people) to support the ongoing operations of the New gTLD Program: Next Round. ● The extent of deployment of UA-ready systems, e.g. websites, email servers and other applications

FY25 Operating Initiatives Progress and Highlights – page 2 of 2

	Operating Initiatives	Examples of Key Milestones
7	Geopolitical Monitoring, Engagement, and Mitigation	<ul style="list-style-type: none"> ● Develop and implement a communications and engagement strategy to address the WSIS +20 process and ancillary events in the lead up to 2025 ● Identify WSIS+20 issues that have the potential to impact ICANN’s mission and the Internet. Inform and coordinate with other relevant organizations on positions stated by governments and other stakeholders in various global fora. Propose common actions and/or response and build coalitions with these organizations whenever possible to illustrate the shared goal of supporting the technical underpinnings of the Internet ● Conduct targeted engagement with countries active in the Global Digital Compact and the WSIS+20 processes to explain the risk of unintended consequences and important issues that have an impact on ICANN’s mission ● Update the community through regular geopolitical plenaries at the ICANN meetings, as well as through publications
8	Improve Depth of Understanding Domain Name Market Drivers which Impact ICANN’s Funding	<ul style="list-style-type: none"> ● This Operating Initiative has been achieved and this has been reflected in the narrative for the FY25 OP as part of the development of the FY25 Operating Plan and Budget. Several activities of this Operating Initiative will continue as a part of continuing operations.
9	Implement New gTLD Auction Proceeds Recommendations as Approved by Board	<ul style="list-style-type: none"> ● ICANN org will complete the implementation of the Board-approved CCWG-AP recommendations and launch the ICANN Grant Program, through which the auction proceeds will be disbursed to eligible applicants and projects ● ICANN org will evaluate the first grant cycle, after cycle completion to assess its effectiveness and whether implementation has been in line with the CCWG-AP recommendations
10	Planning at ICANN	<ul style="list-style-type: none"> ● Continue to implement the planning prioritization framework during the annual planning process ● Establish progress measurement framework to assess how well ICANN org is achieving the strategic objectives and goals outlined in the Adopted FY21-25 Strategic Plan. This will involve enhancing the mechanisms for reporting progress against the Operating Plan and Strategic Plan
11	ICANN Reserves	<ul style="list-style-type: none"> ● This Operating Initiative has been achieved is now part of continuing operations. Org will continue to maintain minimum target level of Reserve Fund per ICANN's replenishment of reserve fund policy

Five-Year (FY25–29) Financial Funding Projections

Funding Projection Approach: Marketplace Horizon Scan

1 Marketplace Horizon Scan

Evaluation of key trends and industry developments that could significant impact on supply-side or demand-side conditions, including:

1. Global macroeconomic forecasts and commentary from sources such as the Organization for Economic Co-operation and Development, International Monetary Fund, World Bank, Economist Intelligence Unit, etc.
2. Interviews with contracted parties via a third-party consultant.
3. Performance and guidance from publicly-traded industry participants via investor statements/documents.
4. Recent marketplace developments: actual or expected changes in supply-side and demand-side conditions.
5. Historical transaction data:
 - Volume of transactions, including new acquisition vs. renewals
 - Growth pattern of launched strings, in terms of domain registrations under management (DUMs)
 - In-depth evaluation of both legacy and new gTLDs
 - Data escrow records

2 Formulation of Assumptions

3 Forecast Generation

Funding Projection Approach: Formulation of Assumptions

1 Marketplace Horizon Scan

2 Formulation of Assumptions

3 Forecast Generation

Low Funding Scenario

- No new registrar accreditation applications
- Decrease in total number of contracted parties
- Decrease in volume of domain name transactions

Base Case Scenario

- New registrar accreditation applications and terminations largely cancel each other out
- Marginal decrease in total number of contracted parties
- Growth in domain name transactions mirror historical rates & alignment with global Gross Domestic Product (GDP) growth trends

High Funding Scenario

- Growth in new registrar accreditation applications
- Increase in total number of contracted parties
- Stronger than historical average growth rates in domain name transactions & alignment with global Gross Domestic Product (GDP) growth trends

Assumes the retention of the current fixed, transaction-based, and accreditation fees.
Does not include any funding assumptions for New gTLD Program: Next Round.

Scenario reflects an assumption of marketplace contraction

Scenario reflects an assumption of steady state of growth in a maturing industry

Scenario reflects an assumption of resurgent marketplace growth

Five-Year Operations Funding Projections (FY25–29)

1 Marketplace Horizon Scan

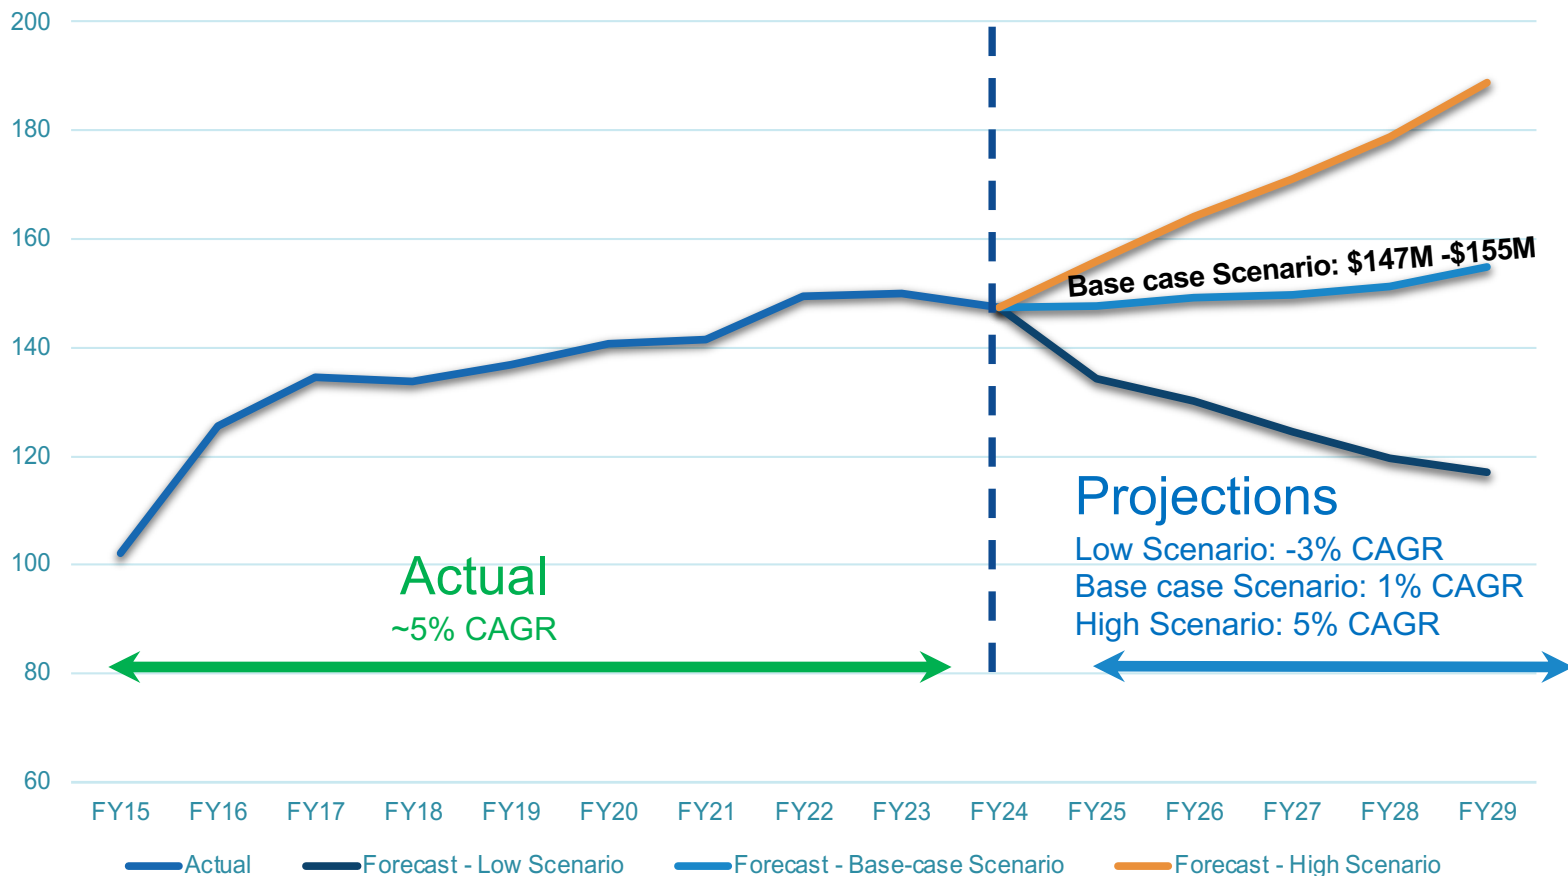

2 Formulation of Assumptions

3 Forecast Generation

- FY25-29 ICANN Operations funding forecast is forecasted to stabilize: the base case Scenario is 1% CAGR over 5 Years
- Funding is projected to see a slight decline from FY23 Actuals followed by modest growth

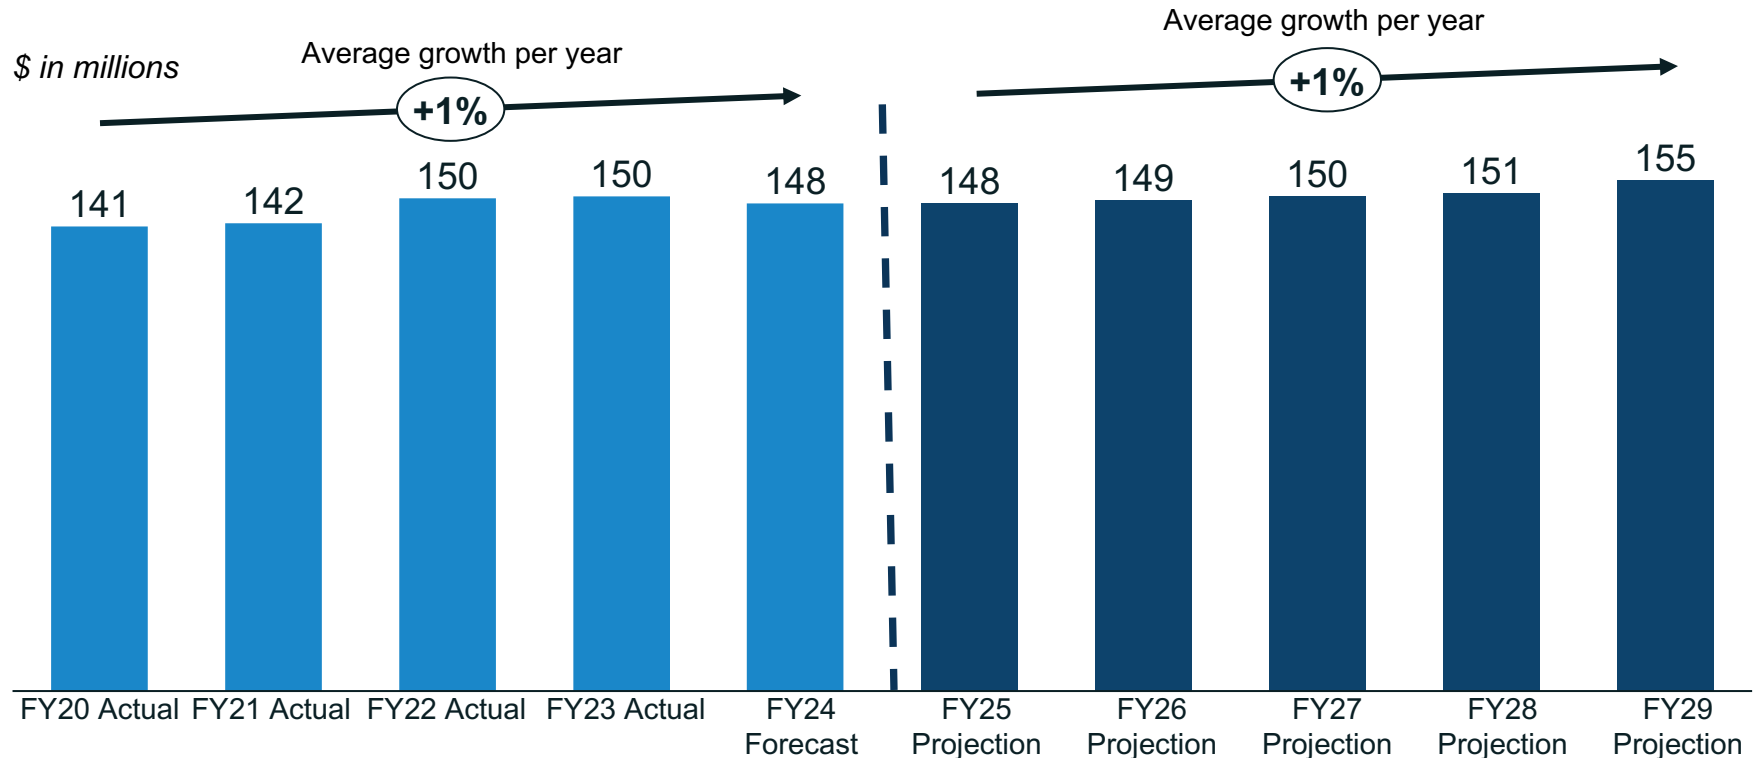

Note: CAGR = Compound Annual Growth Rate; CAGR values cover FY15-23 & FY25-29
 FY15-22 based on audited actuals, FY21-F26 include contributions for SSR Operating Initiative
 In millions, USD; Arithmetic inconsistencies due to decimal rounding

Five-Year (FY25–29) Financial Plan

ICANN Ops Funding Trends and Projections

- The Funding projections account for multiple scenarios, the Budget is built using the Base Scenario which is believed to be the most likely, this scenario projects little growth due to:
 - Projections do not include any changes to fees ICANN charges contracted parties (*fees have not changed since 2008*)
 - Volumes are projected to grow modestly
- Funding projections do not include any impact from Next Round of TLD's

Displayed growth rates are Compound Annual Growth Rates (CAGR)
CAGR by Projection Scenario: Low -3%, Base 1% (displayed), High 5%

Funding Growth versus Inflation Rate

- In recent and projected years, ICANN's funding growth is well below the growth of the United States Consumer Price Index (U.S. CPI) which is indicative of inflation
- Most of ICANN's expenses are USD therefore U.S. CPI is the appropriate benchmark to utilize when assessing the impact of inflation to ICANN

Expense Trends

- ICANN continuously develops process improvements to manage costs and resources, these efficiencies have enabled ICANN to execute on an increased workload while maintaining flat headcount from FY17-FY22

Post- USG transition

- PTI and WS1 Implementation costs
 - GDPR and ITI projects costs
 - Process improvements (reductions of IT systems, meetings optimization)
- ⇒ **flat** costs and headcount

Pandemic “anomaly”

- Lower travel and project activity
 - Project management network
 - Improvements to tools and processes to benefit virtual work and meetings
- ⇒ **lower** costs, **flat** headcount

Intense projects implementation

- Resumption of travel
 - Staff increase for new projects
 - Inflation
- ⇒ **higher** costs and headcount

\$ in millions

Plan for ICANN's Affordability

- ICANN has taken steps to develop efficiencies and minimize costs which has enabled the org to execute on an increased workload and absorb inflationary increases despite a lack of funding growth
- Continuous cost efficiencies and a lack of travel during the pandemic has led to annual excess and provided the ability make \$44M in contributions to replenish the Reserve Fund above its minimum and \$40M to develop and fund the Supplemental Fund for Implementation of Community Recommendations (SFICR)
- Developing efficiencies and process improvements that lead to lower costs will continue to be a focus as funding is projected to continue to remain flat while costs and the workload of ICANN increases
- Executives are regularly reviewing financials and discussing potential efficiencies
- ICANN has identified **\$5M** in “cost savings initiatives” that are needed to balance the FY25 Budget.

One-Year (FY25) Budget

Total ICANN: FY25 Budget Financial Overview

- ICANN's activities are funded by different sources based on the nature of work
- These additional funding sources provide the ability to execute on Org's increasing amount of work and incur total expenses greater than operational funding

New gTLD Program: Next Round

- On 27 July 2023, the Board approved a [resolution](#) that acknowledged receipt of the \$70M [Next Round Implementation Plan](#) and directed ICANN org to provide the Board with periodic updates on its progress on implementation
- On 26 October 2023, the ICANN Board approved a [resolution](#) for an additional \$13 million in funding to support implementation efforts through June 2024
- Funding to pay for New gTLD Program Next Round development costs before program launch will come from both the New gTLD Program 2012 Round remaining application fees and the SFICR
- **Key Deliverables and Highlights of the FY25 Budget**
 - Opening of the Registry Service Provider Evaluation application period
 - Opening of the Applicant Support Program application period
 - Publication of the Applicant Guidebook for public comment

Prioritized Specific Review Recommendations

- In February 2022, ICANN org’s Planning team developed a planning prioritization framework to help the ICANN ecosystem prioritize its work within the planning cycle in a manner that is transparent, inclusive, and efficient
- In November 2022, the ICANN Board passed a resolution that approved ICANN org to utilize US\$5.8 million from the SFICR to fund one-time efforts for the implementation of prioritized specific review recommendations
- Due to the number and complexity of recommendations in some instances, implementation is anticipated to continue in FY25 and SFICR funds will continue to be used throughout the Fiscal Year. All ongoing efforts to maintain service levels and recommendation requirements, after initial implementation, will be incorporated into ICANN org’s annual plan and budget

Grant Program

- Applications will be accepted and processed in cycles, the first one planned to open 27 March 2024, distributing up to US\$10M
- ICANN org estimates to receive 200 applications and approve ~50 grants
- One-time implementation costs include creating the Grant Program department, applicant helpdesk, program literature and documentation
- The recurring program operational costs include ICANN staff, awareness and outreach communication campaigns, and outsourced services for an independent evaluation panel
- The program implementation costs occurred in FY23 and FY24. The first cycle expenses and efforts will span from FY24 through FY26. The second grant cycle is projected to begin at the end of FY25 as soon as the review of the first cycle is complete

Activity Based Reporting

Background

- ICANN org continually looks for ways to present reporting that is transparent and useful, both internally and externally
- Expense categories such as Personnel and Professional Services are commonly used at both for-profit and nonprofit organizations
- To enhance financial reporting, ICANN has developed an activity-based approach to present ICANN Operations' costs in a way that better relates to ICANN's core work and mission

Note: Activity Based Reporting should not be confused with the Operating Plan's "Functional Activities" which are based on the organization's structure and the activities needed to operate ICANN.

Activity Based Reporting Ecosystem

- The FY25 Budget includes a new reporting structure called Activity Based Reporting based on classifying ICANN Operations' expenses within an ecosystem of ICANN's work
- In general, ICANN's workflows begin with Community and Engagement and end up with Policy Implementation
- The Technical Mission and Internal Operations activities are also impacted by and help support these workflows

Activity Components

Community and Engagement

Support the community and facilitate work such as policy development and reviews

- ICANN Public Meetings
- Community Programs and Meetings Support (incl. NomCom)
- Engagement and Board costs
- Staff support for Supporting Organizations and Advisory Committees

Technical Mission

Technical initiatives and activities in support of ICANN's mission

- IANA Functions
- Ensuring SSR of Internet Identifiers
- Root Zone Management
- Facilitating DNS Ecosystem Improvements

Internal Operations

Provide the support and infrastructure for ICANN to execute its mission

- Engineering & IT
- Finance / Procurement
- Risk Management
- Global Human Resources
- Communications
- Legal

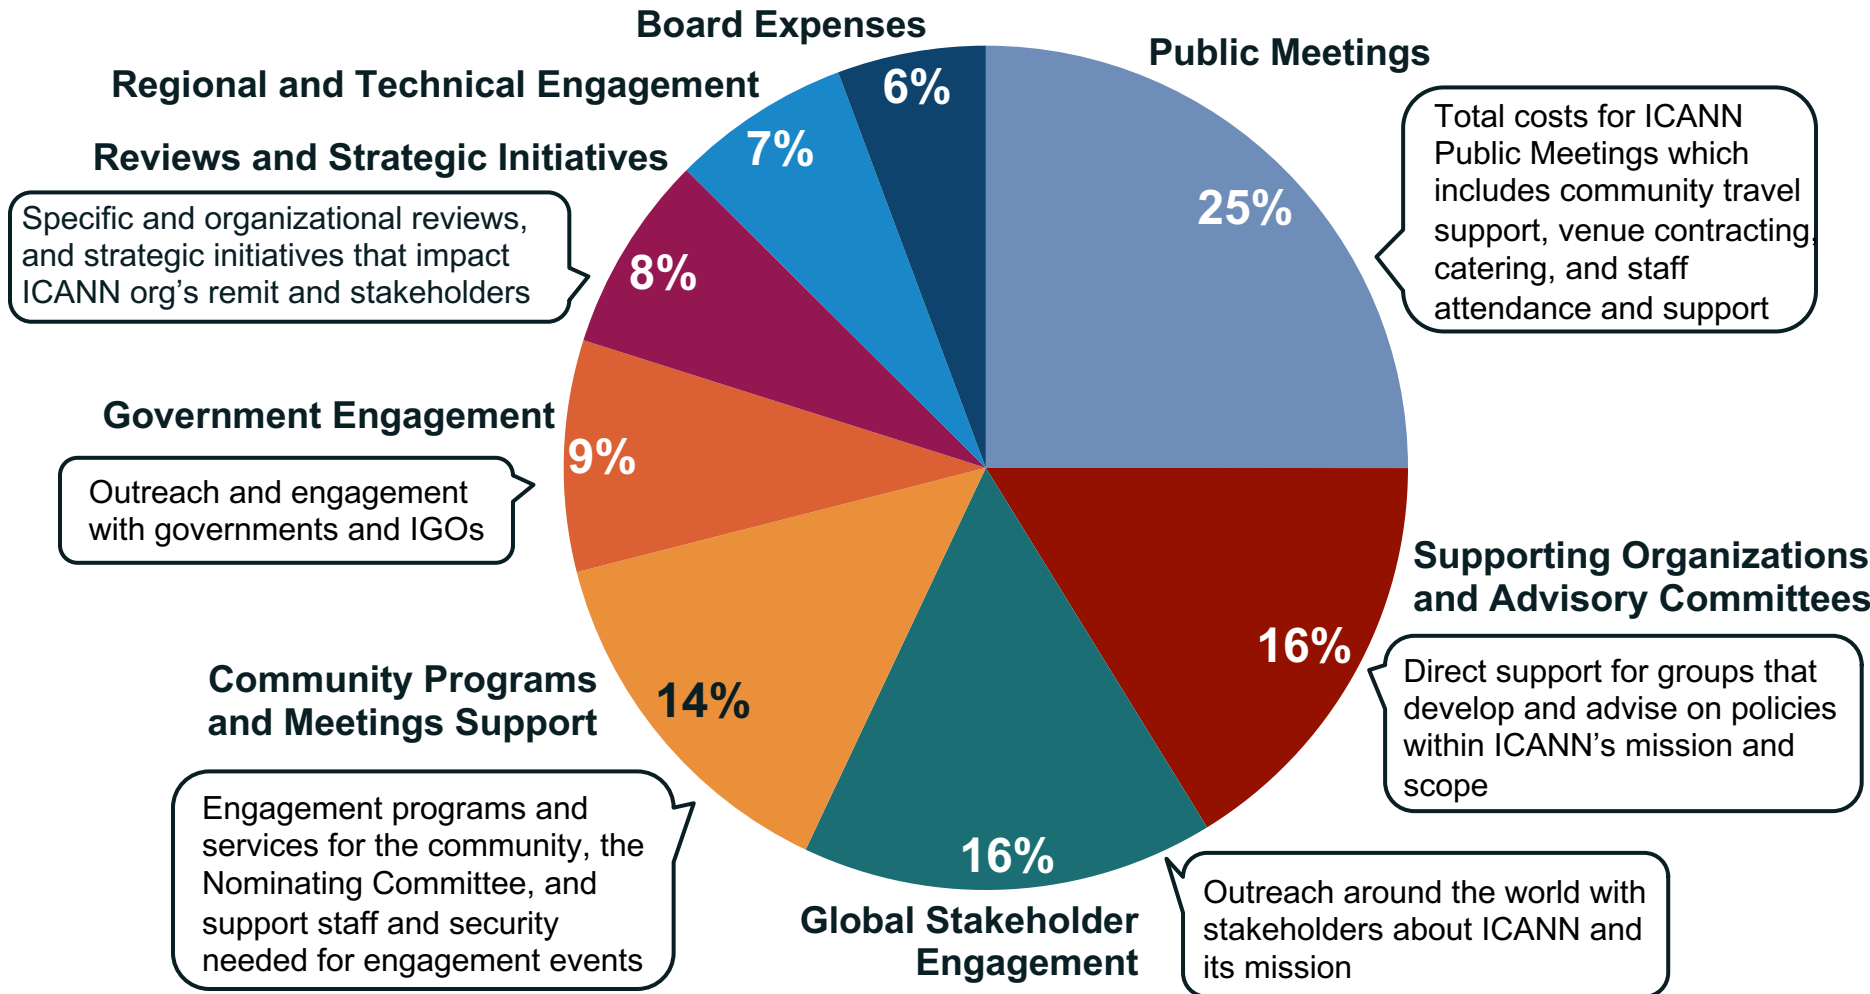

Policy Implementation

Carrying out services to Contracted Parties, and implementing Board-approved recommendations

- Contracted Parties Management and Services
- Contractual Compliance
- Global Customer Support
- Implementation Operations

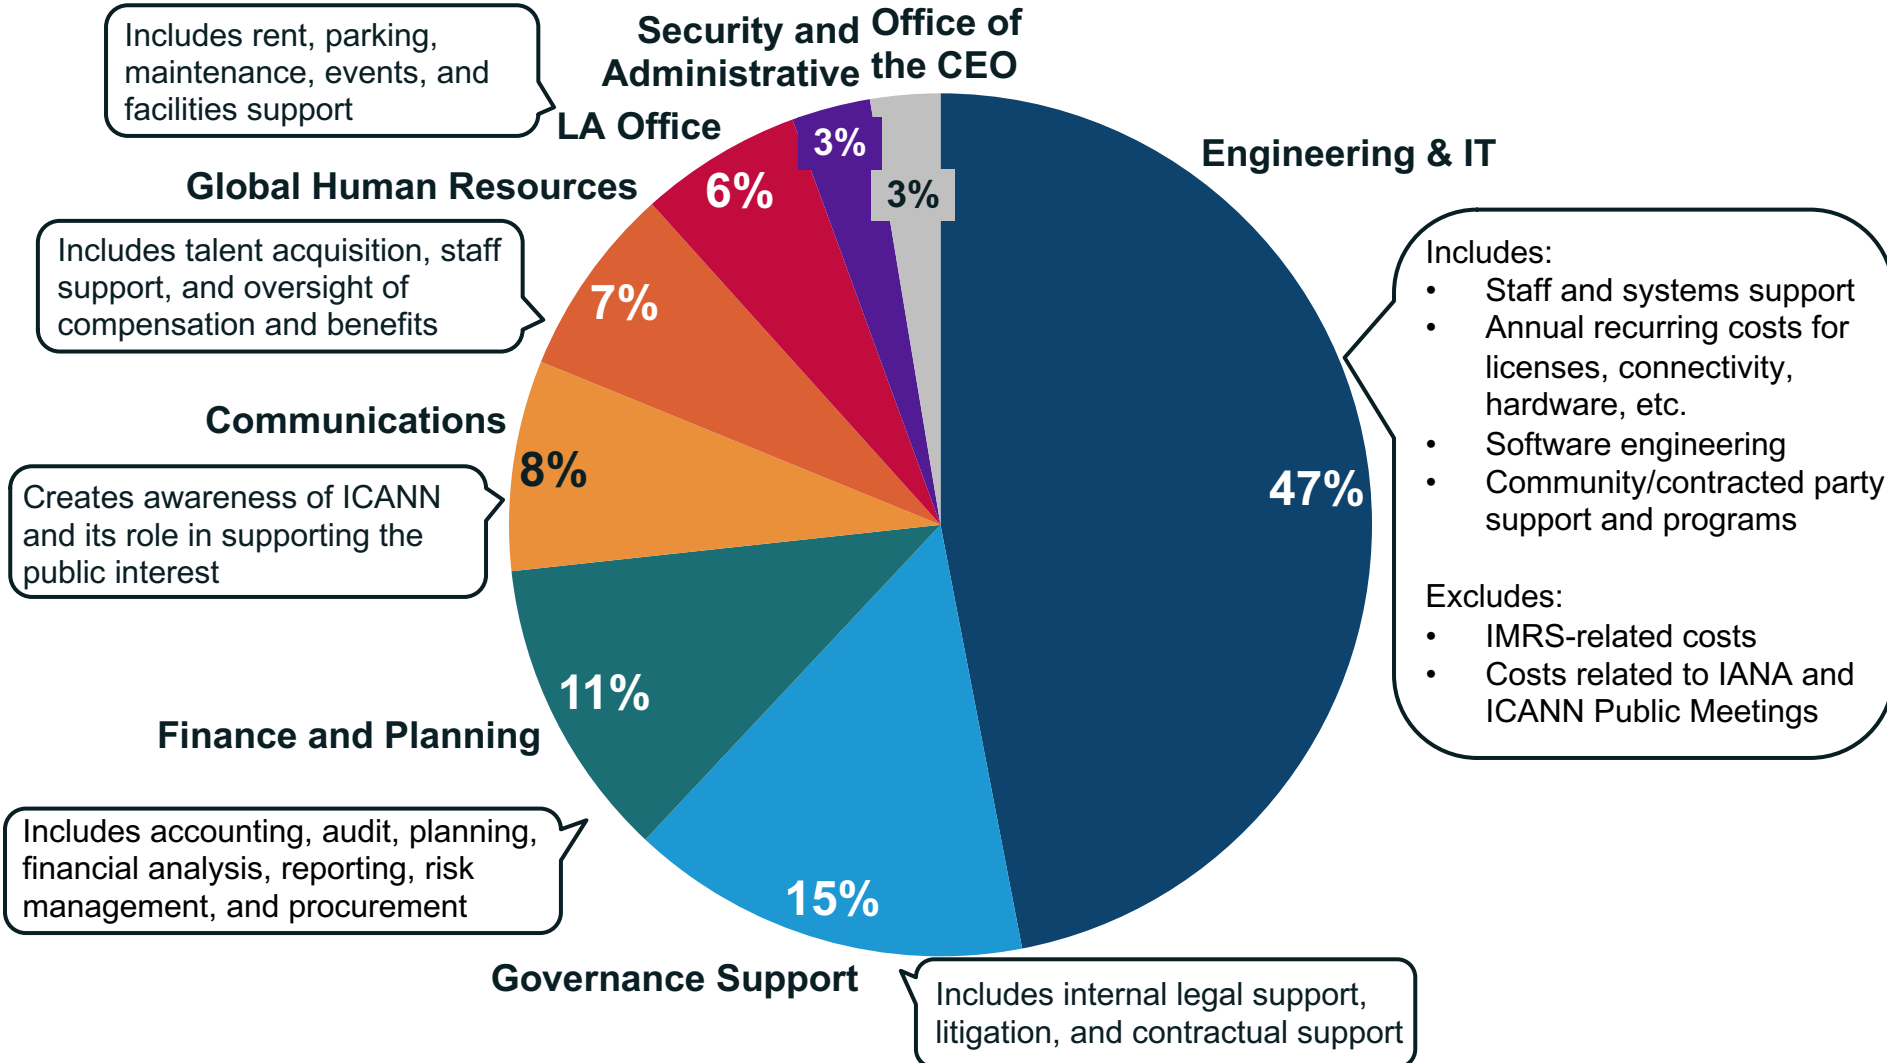

Detail of Community and Engagement Activity

FY25 Community and Engagement - \$59M

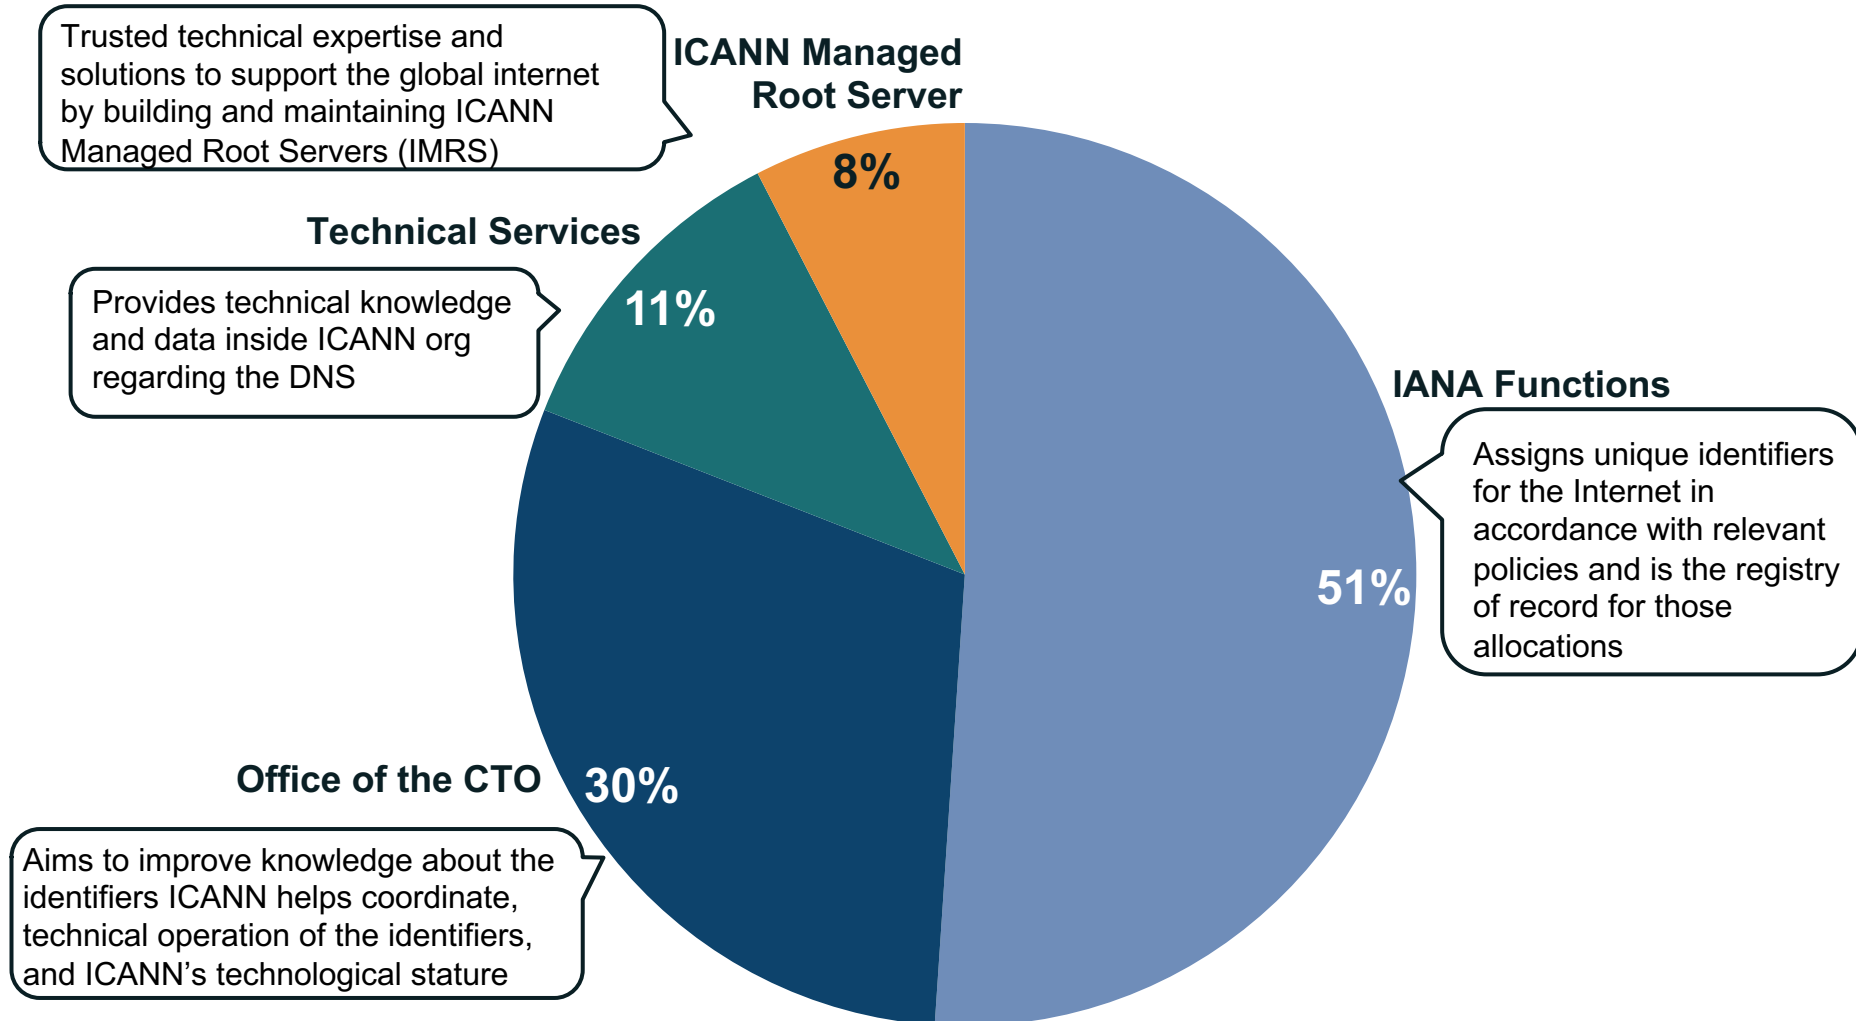

Detail of Internal Operations Activity

FY25 Internal Operations - \$42M

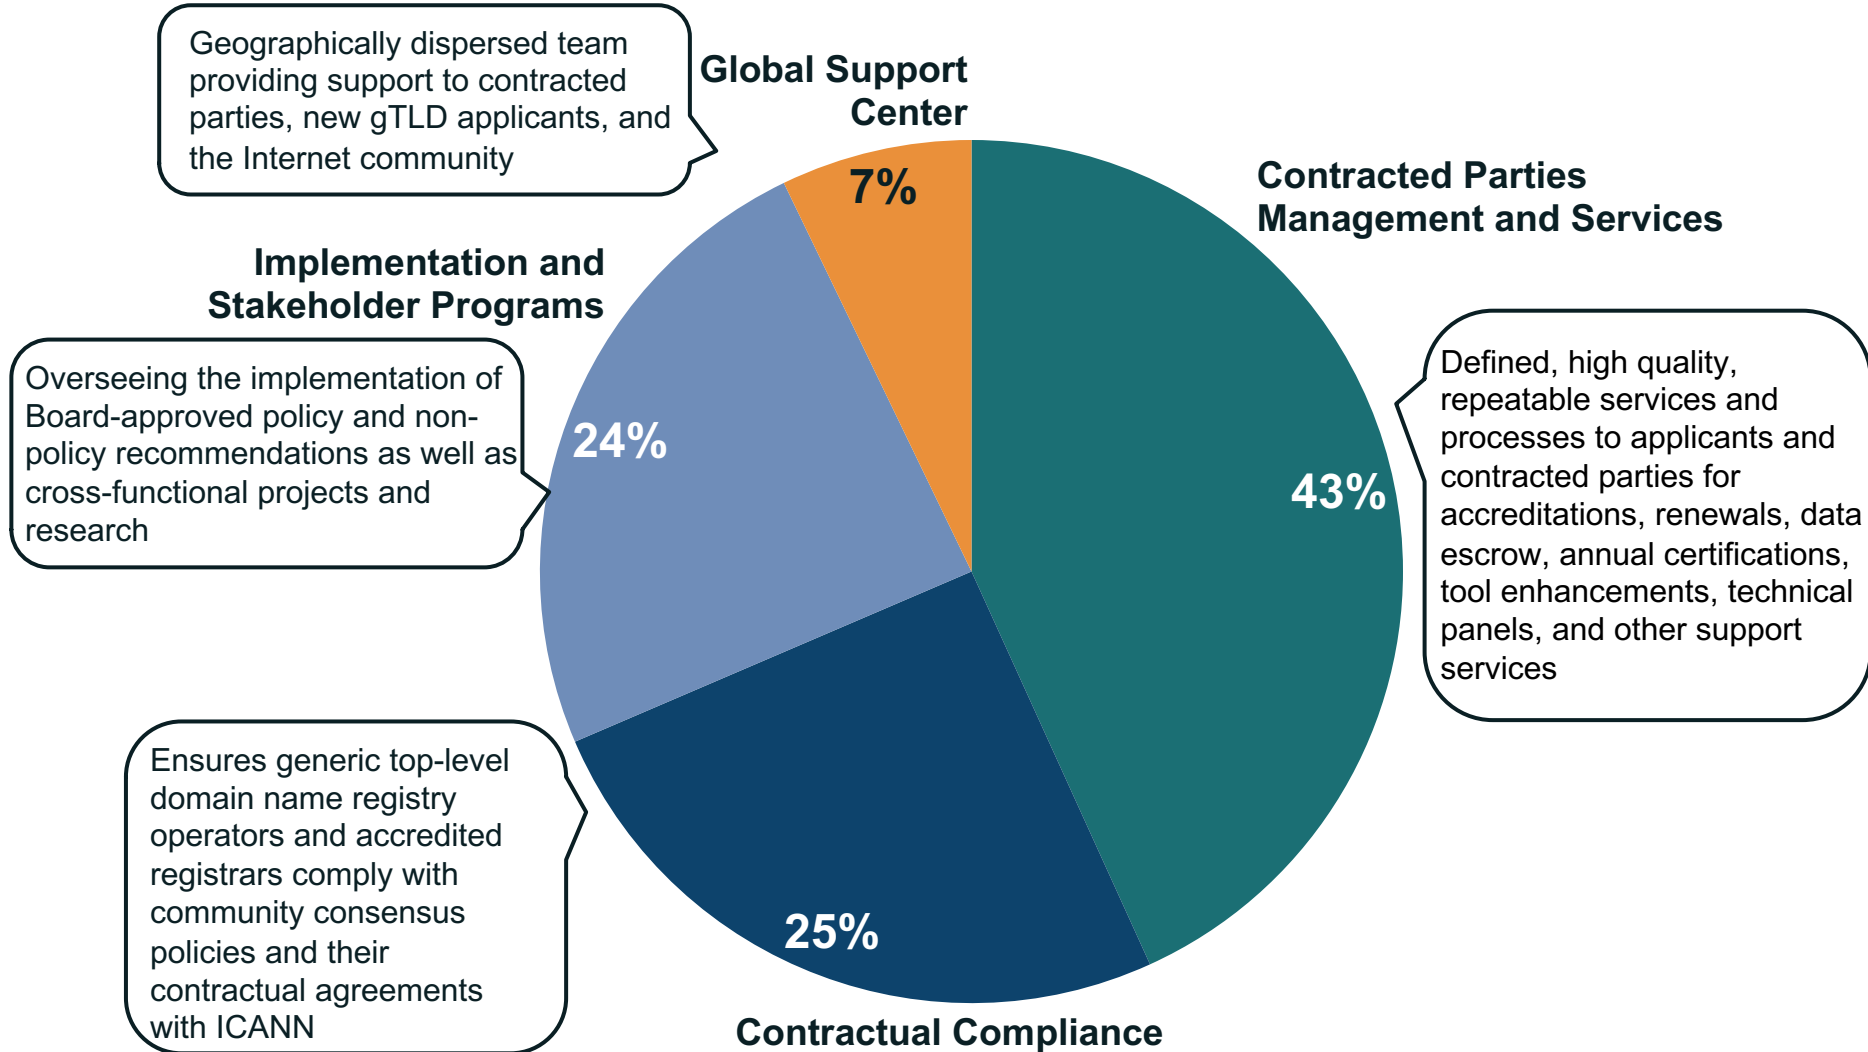

Detail of Technical Mission Activity

FY25 Technical Mission - \$24M

Detail of Policy Implementation Activity

FY25 Policy Implementation - \$23M

Comparison of Reporting Views

- Below is a comparative view of the ICANN Operations costs of \$148 million in the Draft ICANN FY25 Budget.
- The left chart shows costs broken out by the traditional expense categories that ICANN and other organizations use, while the right chart shows the costs broken out by ICANN Operations' activities as explained in the previous slides.
- ICANN is working on a plan to use Activity Based Reporting as a standard for community reporting.

Operating Plans and Linkage to ICANN's Strategic Plans

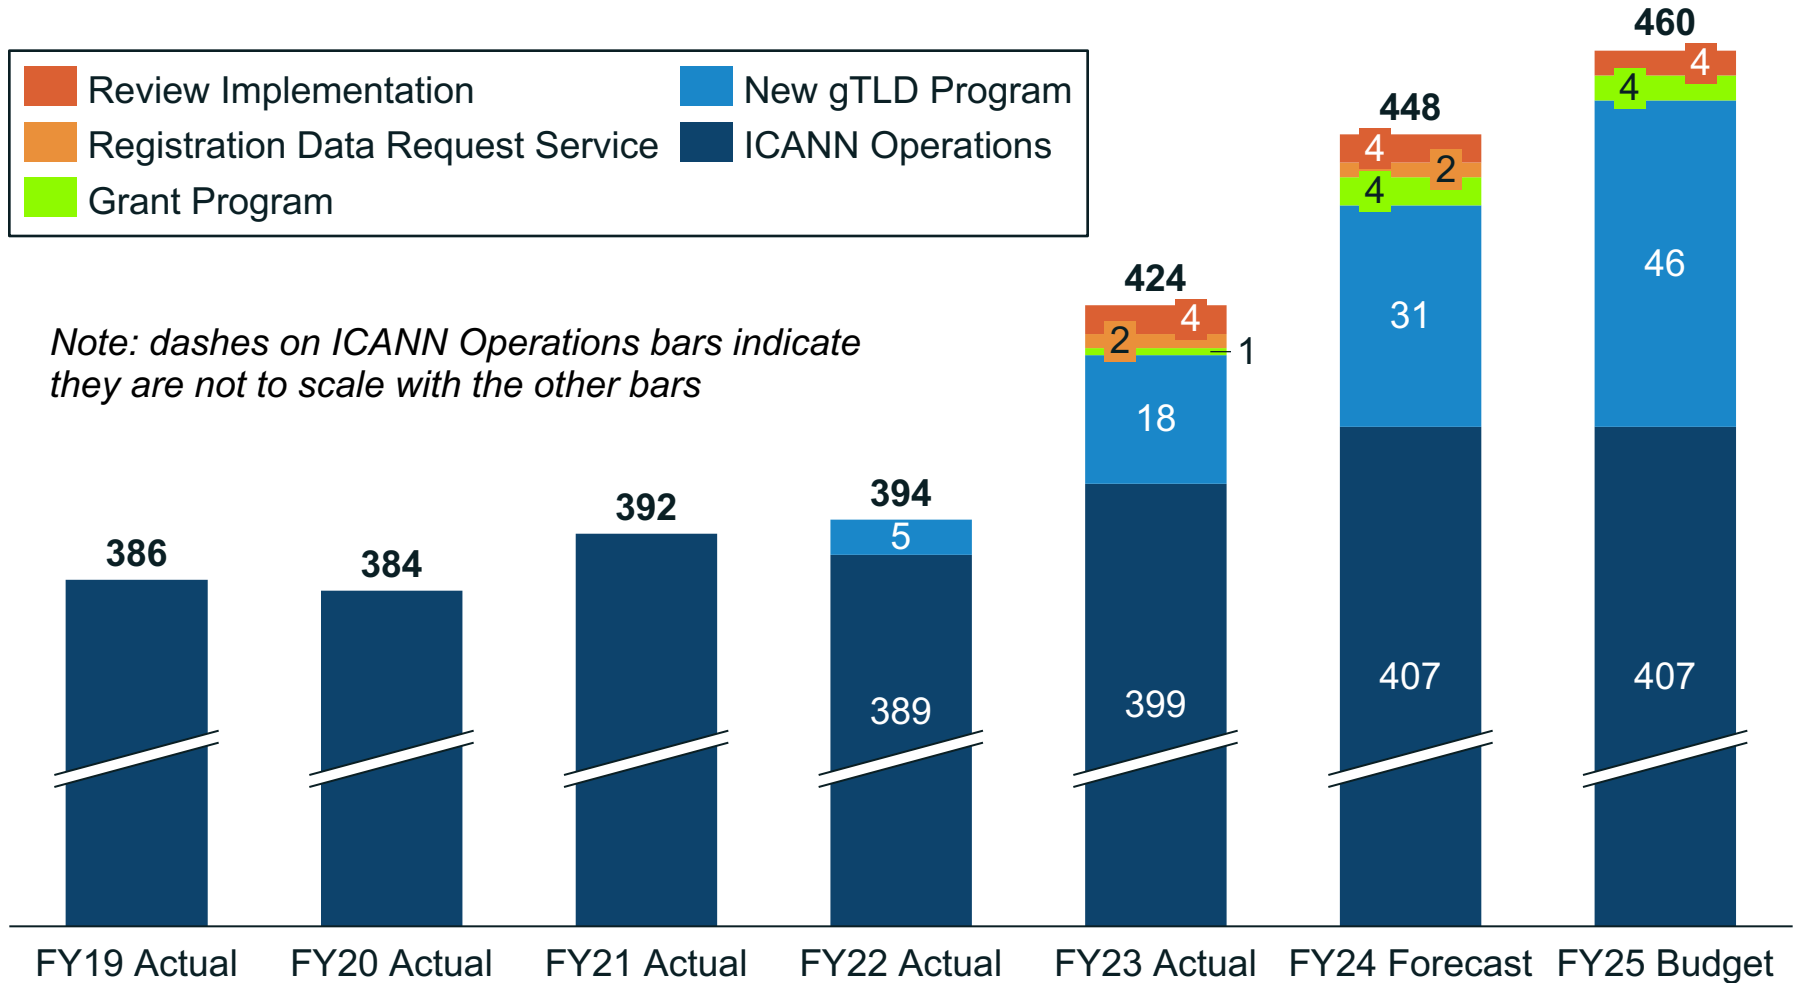

**Numbers are for illustration purpose only*

Operating Plan Additional Resources

- [Operating Initiatives Supporting the Strategic Plan \(Appendix A\)](#): A mapping that showcases how ICANN org will achieve the objectives and goals set out in the Five-Year Strategic Plan. Each operating initiative is cross-referenced against the strategic goals, so readers can gain a comprehensive understanding to the strong interconnectedness of ICANN org’s work
- [ICANN Rolling Five-Year Roadmap: Policy, Review and Cross-Community Working Groups \(Appendix B\)](#): A rolling five-year roadmap, with indicative and tentative timelines. Work related to these activities will be prioritized and resourced on an ongoing basis
- [Recommendations Relating to Cross-Community Working Group on Enhancing ICANN Accountability Work Stream 2 and Reviews \(Appendix C\)](#): A comprehensive list of recommendations and its status relating to reviews and cross-community working group. ICANN org will define, plan for the implementation of these recommendations, so that such implementation work can be considered for prioritization and scheduled for implementation accordingly
- [ICANN Security, Stability, and Resiliency \(SSR\) of the Internet Unique Identifiers \(Appendix D\)](#): Although every function of ICANN org contributes to the overall Security, Stability and Resiliency (SSR) through its support of org’s work to advance ICANN’s Mission, this schedule highlights activities particularly focused on supporting the SSR of the unique Internet identifiers
- [Funding Forecast Assumptions Report for Fiscal Years 2025–2029](#): This report outlines the various funding-related assumptions and projections included in its Five-Year Operating and Financial Plan

Total ICANN Average FTE Trends

- In alignment with ICANN's staffing plan, headcount has grown in recent years to support new initiatives and projects

Additional Budget Request Sunsetting

- ICANN recently [published a blog](#) about streamlining resource requests from the ICANN Community
- The Additional Budget Request (ABR) process was introduced an addition to the annual Operating Plan and Budget (OP&B) process for resource requests from the ICANN Community
- In recent years, the number of requests have decreased significantly due to confusion about the ABR process and what meets criteria for resources
- Moving forward, ICANN org encourages ICANN community groups to use the annual OP&B process for all resource requests
- ICANN org will end the ABR process beginning with the FY2025 OP&B process
- The annual OP&B process is better understood, and several ICANN community groups already align their operations and planning work to it
- Streamlining resource requests from the ICANN community into a single process is expected to result in more efficiencies
