Policy Forum

- Four days
- ICANN community work
- ICANN Community Excellence Award

Annual General Meeting

- Six days
- ICANN community work
- ICANN Community Recognition Program and Kamel Award
- ICANN Board meeting and Public Forum

Supporting Organizations

ASO

The ASO Address Council is composed of 15 members — three from each of the Regional Internet Registries (RIRs) — who work on global Internet Protocol (IP) Address Policy.

ccNSO

The ccNSO (Council and members) works on global policies relating to country code top-level domain name (ccTLD) policies (e.g., .br, .uk).

GNSO

The GNSO Council is composed of 21 members — divided into two houses (contracted and non-contracted parties) — who work on generic top-level domain name (gTLD) policies (e.g., .com, new gTLDs).

Supporting Organizations (SOs)

Three SOs in the ICANN community are responsible for developing policy recommendations in the areas they represent.

Address Supporting Organization (ASO)

Country Code Names Supporting Organization (ccNSO)

Generic Names Supporting Organization (GNSO)

Supporting Organizations

Advisory Committees

Advisory Committees (ACs)

Four ACs give advice and make recommendations on ICANN topics.

At-Large Advisory Committee (ALAC)

Governmental Advisory Committee (GAC)

Root Server System Advisory Committee (RSSAC)

Security and Stability Advisory Committee (SSAC)

ALAC

The ALAC expresses the interests of the individual Internet user and is composed of 15 members: two from each of the five Regional At-Large Organizations and five appointed by the ICANN Nominating Committee. It is supported by At-Large Structures.

GAC

The GAC provides advice on public policy issues, particularly on interactions with ICANN policy and national laws or international agreements.

RSSAC

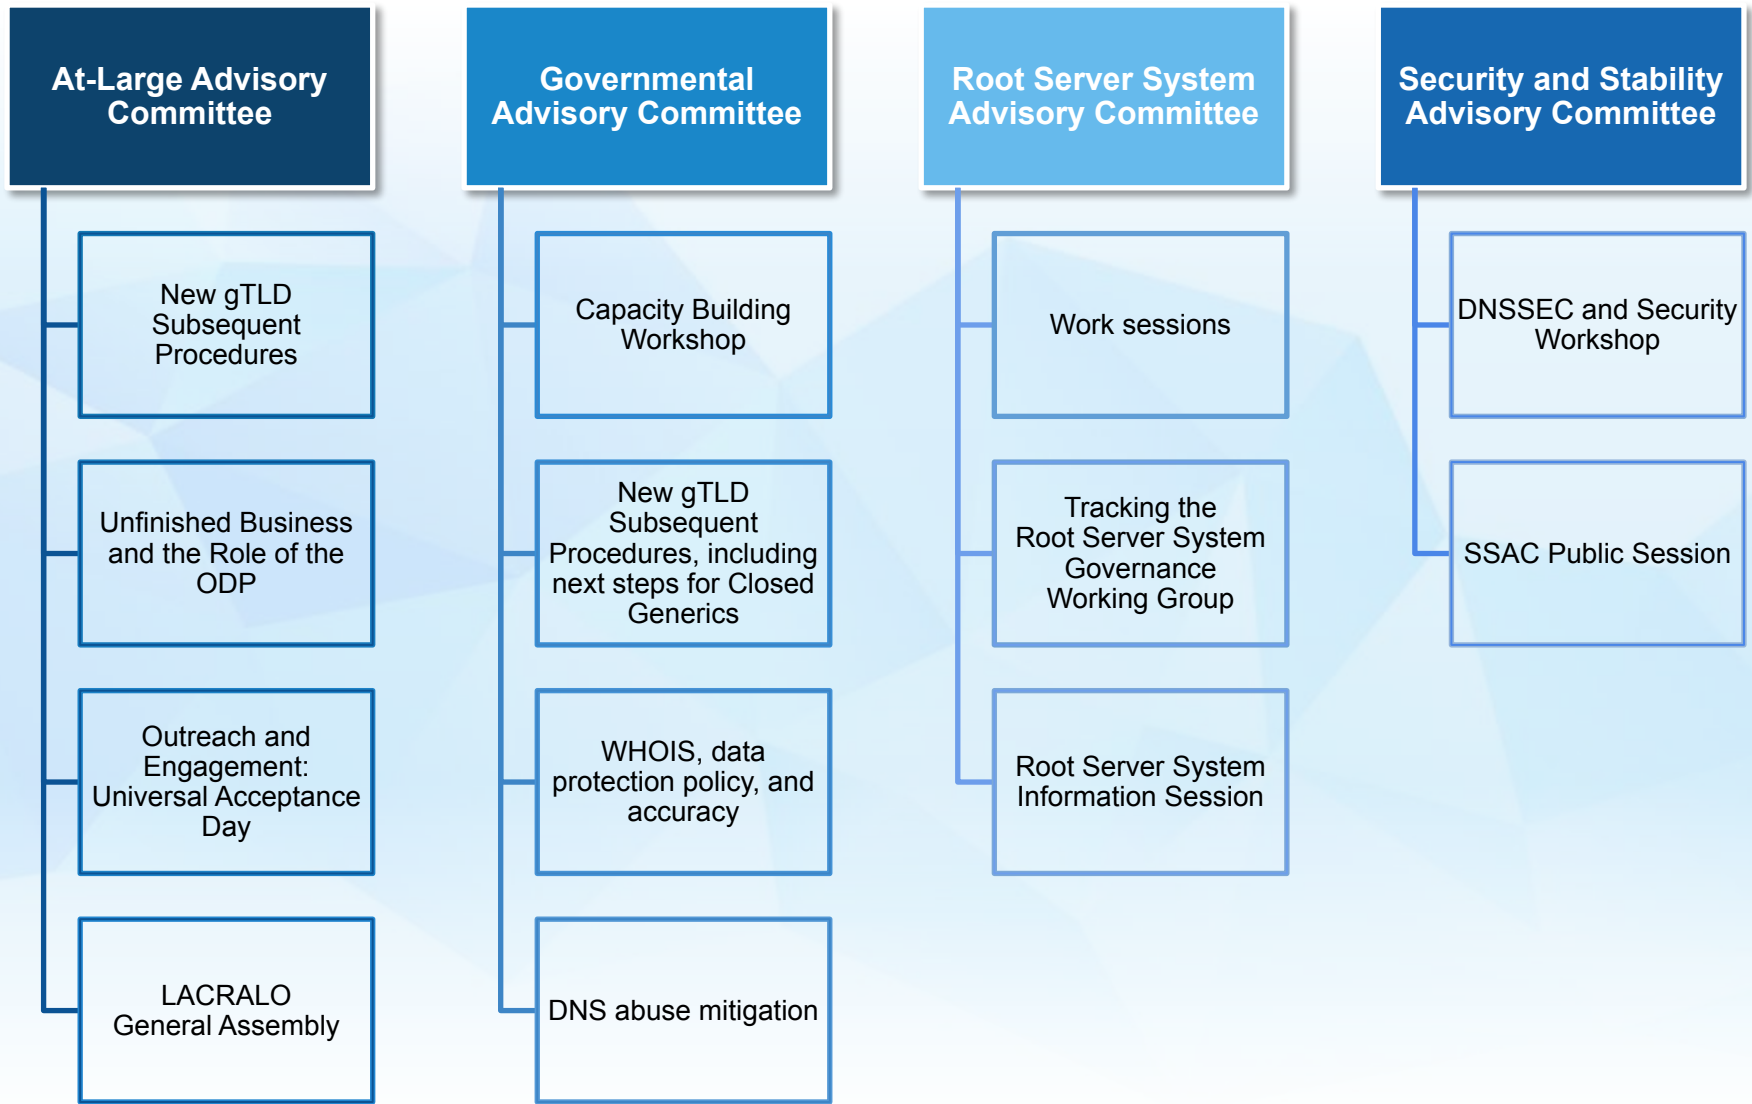

The RSSAC advises on the operation, administration, security, and integrity of the root server system.

SSAC

The SSAC advises on matters related to the security and integrity of the Internet's naming and address allocation systems.

Advisory Committees

How to Prepare

ICANN76 Policy Outlook Report

Other Sessions

Looking Toward WSIS+20: How Can We Improve Multistakeholder Participation in Internet Governance?

The 2025 review of World Summit on the Information Society (WSIS) implementation is a critical opportunity to reaffirm support for multistakeholder Internet governance. This plenary session will discuss

- How to encourage multistakeholder participation in the WSIS+20 review process
- How such participation might reflect the importance of multistakeholder Internet governance
- How to improve global multistakeholder Internet governance

Root Server System Governance Working Group Work Sessions

RZERC Charter Review Information Session

Tech Day
