      - p 63 title of section 15.1 – changes (strikethroughs) accepted
    - From discussion 25 July
      - Page 3: added “the ccPDP3”
      - Page 14: section 3.1.3 “and” changed to “and/or”
      - Page 17: Left term “Character”, deleted “letter” Added footnote 16 added, includes Sarmad's suggested reference to term Base Character
      - Page 27: section 6.2.3 . Reference to section updated: was section “16” is now section “15” (review of policy).
      - Annex A and B have been updated.
      - Annex A: references to sections in Initial Report of other sources included.
      - Annex B: Update of introduction: Terms are included for educational use only, should not be used for future reference. References 2013 ISO3166 Standard have been removed. If text on OBP: has been included in *Italics*.
      - Annex C: Irina suggested to treat “Section observations” as “Notes and Observations” in main text. After some thought suggest NOT to use same way to present. Suggest to reserve “Notes and Observations” to distinguish between interpretation and policy recommendations. In Annex C it is used for different purpose to distinguish between rationale and advise to ccTLDs, which is not part of the policy. Suggestion is to call it what it is: need to advise ccTLDs
      - Page 80: Final sentence added word “local”
      - Page 80: marked text was originally “Notes and Observations” to be consistent it is no longer considered as such.
4. Final reading full text
