Natalia Filina – EURALO

Proposed Session Title

"O&E for volunteers, problems of mobilization, new solutions, exchange of experience"

Brief Description

This is a joint 90 min meeting of representatives of ICANN AC/SO, initiated and organized by ALAC. A meeting with AC/SO representatives (leaders) will allow us to discuss the problem of the ICANN community and hold a discussion, share ideas and practices (+conduct brainstorming) on how we can mobilize the community, attract new volunteers with the necessary expertise to work.

Rationale/Desired Outcomes

The result of this session will be: new practical solutions, probably consolidation of the OE processes and approaches within ICANN community, creating OE global WG, attracting audience`s interest in the issues of hunting for the community and, as the best outcome an inflow of new volunteers for represented AC/SO (because the session like this is an OE tool too).

Which, if any, other community groups do you plan to involve in your session? Please explain your plans for working cooperatively with the group(s), including your contacts, skill sets sought, etc.

ALAC, NCUC, NPOC, SSAC (at least, but not limited), GSE

Session Leaders/Facilitators and Panelists/Presenters

ALAC leaders, ALAC OE Subcommittee rep`s, AC|SO leaders, GSE rep`s

Under which At-Large FY25 Strategic Priority Activities work track area does this topic fall? /

Preserve and enhance end user "Seat at the Table", Evaluate and Improve At-Large Engagement, Initiate Continuous Improvement efforts

Additional information or comments

This session can help ICANN look at the issue and develop/strengthen support for new areas of OE work in the community.
