

Self-selecting a breakout room

You can self-select and join breakout rooms of your choosing, once the host opened the rooms. You will then be able to view and select from a list of breakout rooms the host has created. You will be able to enter and leave breakout rooms freely.

Note: Participants not joined with the desktop or mobile app (version **5.3.0** or higher) will not be able to self-select a breakout room. The host will need to facilitate moving these participants manually.

1. Click **Breakout Rooms**  in your meeting controls.
This will display the list of open breakout rooms created by the host.
2. Hover your pointer over the name to the right of breakout room you wish to join, click **Join**, then confirm by clicking **Join**.
3. Repeat as necessary to join other breakout rooms, or click **Leave Room** to return to the main session.
