APIGA

ASIA PACIFIC INTERNET GOVERNANCE ACADEMY

DAY - 01

July 08, 2024

We are NetMission!

NetMission.Asia

NetMission.Asia, established in 2009, recruits students from top colleges and universities and provides a series of workshops to train its members through its flagship program, the NetMission Academy, offering online sessions that bring together young visionaries from the Asia Pacific region to engage in Internet policy making.

Since 2010, it has been organizing the annual Youth Internet Governance Forum (yIGF) in the Asia-Pacific region, with events held in places such as Singapore, Tokyo, Seoul, Delhi, Macau, Taipei, Bangkok, and Port Vila, to support and encourage youth participation in internet governance.

With the support of the DotAsia Organisation, NetMission.Asia actively participates in various regional and global internet conferences, including ICANN meetings, the United Nations Internet Governance Forum (IGF), the Asia Pacific Regional Internet Governance Forum (APrIGF), and the Asia Pacific Internet Governance Academy (APIGA).

What are your expectations for APIGA 2024?

slido

- ① Click **Present with Slido** or install our [Chrome extension](#) to activate this poll while presenting.

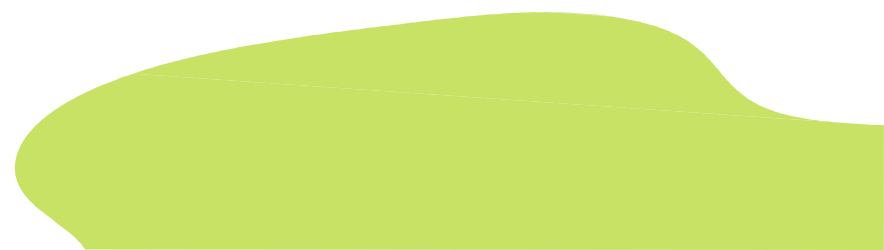

Agenda

Ice Breaker - Things in common (15 mins)

- A series of questions will be display, one at a time. Each question will have multiple-choice answers. Each round of question is **2 minutes**.
- Finding Your Group: When the facilitator asks a question, look around the room and find others who have chosen the same answer.
- Start by **introducing yourself** and briefly discuss the common answer with your group.

Ending Each Round:

- After 2 minutes, the facilitator will signal the end of the round and gather everyone's attention.
 - Switching Questions: The facilitator will then announce the next question.
 - Repeat the process for each new question.

Agenda

Team Building (20 mins)

- Participants will be divided into three groups– **GAC**, **ALAC**, and **GNSO**. In this team building session, participants will introduce themselves, discuss Internet-related issues they're concerned about and give three characteristics of a good teammate and the core values of their team.

Questions

Introduce yourself!

What Internet-related trends are you concerned about?

Give three characteristics of a good teammate and the core values of your team.

Agenda

Presentation from each group (10 mins)

- One representative from each group will summarize and share the final output from their group discussions.

THANK YOU!!
