09:28:56 From Cheryl Langdon-Orr - ALAC Rep to Everyone:

Yes the turnover in GAC must be a huge challenge in terms of Membership

management.   but it is essential and important work...   That same turnover must also make it

more challenging for a most effective model for sustained and most effective input of the GAC

into the work of ICANN.   Respect for all the efforts being made (disclosure in Australia the

'Significantly Interested Parties' in all thing Internet - including ICANN activities- work together

closely in a regular roundtable model we trust that helps our GAC Reps keeping on top of things... It also assists that in Aus that means we in ALAC/At-Large we get to work with not just our ICANN GAC rep but also all the Depts involved in the Internet space.

09:28:57 From Natalia Filina to Everyone:

Dear all, I will fill my profile as needed and provide all of the information about my short bio, experience and activities, intention to be within CIP-CCG as alternate from EURALO.

09:29:39 From Cheryl Langdon-Orr - ALAC Rep to Everyone:

I share that as in interesting example of cooperation outside of ICANN per se, that also can positively effect COIP in ICANN

09:30:39 From Cheryl Langdon-Orr - ALAC Rep to Everyone:

@Tijani BEN JEMAA where does NomCom see the implementation of the recommendations from its last Organisational Review fitting in with this process especially

regarding the utility of the Standing Committee and the year by year buiding of certain resources and processes such as you described as still annualised?

09:45:30 From Tijani BEN JEMAA to Everyone:

@Cheryl Langdon-Orr - ALAC Rep It should be soon, perhaps at the end of this year

09:46:57 From Larisa Gurnick - ICANN Org to Everyone:

Replying to "@Cheryl Langdon-Orr ..."

Staff is organizing the steps to get the Standing Committee initiated by AGM.

09:47:22 From Cheryl Langdon-Orr - ALAC Rep to Everyone:

@Chokri Ben Romdhane, do I assume correctly that the AFRALO RoP review activity will ensure the full implementation of the recommendations regarding At-Large Structures (re accreditation for example) out of the last ALAC/At-Large Review and the ALS and UIM Mobilization Reports etc., so going to harmonize with the other RALOS (like being outlined now by @Amrita Choudhury? It was quite an effort just completed in APRALO but certainly worthy and essential work...
