IGLC should

(1) create messaging to ccTLDs, in addition to the previously created FAQ (2) ensure WSIS+20 is a standing item on the IGLC working session agenda Strongly disagree (3.a) share government engagement examples regarding WSIS+20 (3.b) map the type of governance models for ccTLDs (4) use the relation between GAC and ccNSO (Council), to inform ccTLDs 3.6 (5) create a library

Strongly agree

Major projects: high impact, and high effort. What should IGLC do first?
