Accomplishments this period

Launced discussion of "threats" work in Singapore.
Continued conversation about Singapore results on the "Criteria for security and stability" topic
Deferred "confidential information" discussion pending results of co-chair conversations with
    DNS-OARC next week. OARC has already confronted some of the issues we're
    dealing with (especially regarding forming sub-groups) and the co-chairs are interested
    in learning from those experiences.

Plans for next period

Continue "Threats" revisions based on new drafts
Discuss sub-team formation with OARC members (co-chairs/ops-group call)
