**Accomplishments this period**

**DSSA**

Ranking -- we put this on the shelf -- we'll pick this up again as we get into the analysis
Analysis -- there's a preliminary consensus that we'll be using NIST 800-30

**DSSA Ops Group**

Conducted an intense review of NIST 800-30 and agreed to propose that methodology to the group

**Plans for next period**

**DSSA**

Analysis -- discuss preliminary consensus to use NIST 800-30 on the list and complete the
            consensus-call on the Thursday teleconference
Analysis -- start reviewing threat-sources -- NIST task 2-1

**DSSA Ops group**

Analysis -- complete a summary mind-map of NIST 800-30  (Mikey)
Board committee -- review results from Patrick -- held over
Review Julie's draft of "handling confidential information" with the Ops group
            (held over pending language from Mark)

**Issues and concerns**

Regarding the scope issue from last week -- the co-chairs agree that methods, while important, are simply a tool that we need in order to complete the work that we're chartered to do.  We will inform interested parties (AC/SOs and SSR-RT) but there's no need to go back for review or approval
